Subject: 2023-2024 Data Errata - December Snapshot

This letter is to correct the Osceola School District TFS inclusion error that occurred during the December Snapshot.

During the review of the December 2023 Snapshot report, we noted the occurrence of some errors that came to our attention. As part of our commitment to transparency and accuracy, we believe it is essential to promptly address any discrepancies discovered.

After conducting a comprehensive review, we have discovered that 141 students were unaccounted for in the December Snapshot. Upon further investigation with our SIS team, it appears that a significant number of our open-enrolled students were not accurately reflected due to an error in the entry/withdrawal records that did not align with the District Configuration District. The Skyward Student PR 5559809 went out on 11/22/23 which fixed an issue with students not reporting the M-3FS indicator for students absent on Count Date when their entry/withdrawal District didn't match the District Config District (PR 5653817 was also created to update the additional membership indicators).

December Snapshot reported 1,361 students

TFS - 1,502 students

Please accept this letter as official notification of the data error.

Bryan Marks
