Dear WISEdata Collection Agents,

In our 2020-2021 High School graduating class, three students received a HSED alternative diploma. During the 2022-2023 school year, the district created an alternative education program and set graduation requirements within that program that would now allow these three students to graduate with a regular education diploma. Therefore, on February 6, 2023, the three students were informed and requested a regular Columbus High School graduation diploma.

These changes have been noted on our student tracking system and our Student Information System. We continue to work with our data team to effectively track student data in an effort to meet compliance measures set in place by the Department of Public Instruction.
