

HERITAGE CHRISTIAN SCHOOLS

December 4, 2023

To Whom It May Concern,

Heritage Christian Schools (0848) transitioned to a new Student Information System, Blackbaud, in the summer of 2022, and the transition has caused some errors in student data that we are working with Blackbaud to resolve.

Many fields of student information did not transfer over from our previous SIS. We had to work to transfer all of that information as well work with Blackbaud to create many of the fields that upload to Wisedata. Because of this, we found out this fall that our graduates from 2023 are not exiting WISEdata correctly. The information shows they have graduated but still have not been exited correctly. We are working with our SIS to correct this information and will have it done as soon as possible.

Please make record of these matters in regard to our 12/5/23 WISEdata snapshot.

Thank you,

Mary Centinario
Registrar
