Dear Michelle Jones,

It has come to our attention there was an error in our data discovered during your ISES Year-End data quality checks regarding the number of graduates reported for the 2015-16 school year.

The ISES high school completers count per the 2015-16 High School Completion Rates report in WISEdash is erroneous due to an incorrect exit code/type.

I understand by having this letter posted on the Data Errata webpage does not change the information as the purpose of this website is to create a central location to find published errata pages for data that has been misreported.

Sincerely,

Dr. Thomas Wiatr
District Administrator/Director of Pupil Services
