RE: World Languages Data Errata

Dear Ms. Jones,

Isthmus Montessori Academy Public is submitting this errata letter in order to acknowledge our error in our World Languages data for the 2018-2020 school years. For both years, our district reported zero numbers for the World Languages data. The reason for this lack of data is because as of Spring 2020, Isthmus Montessori Academy Public has not had a licensed World Languages teacher.

In order to rectify this, Isthmus Montessori Academy Public is working to hire a World Language Experience guide in 2020. This individual will be working part-time with students in Lower Elementary-High School. When data is available to be reported, Isthmus Montessori Academy Public will submit this information to the Department of Public Instruction.

If you have any questions or require additional action to resolve this issue, please contact Kara Anderson - Director of Community Relations and Student Welfare, at kara.anderson@isthmusmontessoriacademy.org or call (608) 661-8200.

In Service to the Children,

Kara Anderson
