RE: Child Count Data Errata

Dear Ms. Jones,

Isthmus Montessori Academy Public is submitting this errata letter in order to correct our Child Count data for the 2018-2020 school years. For both years, our district reported zero numbers for the October 1st Child Count. The reason for this lack of data is because the employee responsible for submitting this report did not have a clear understanding of organization's expectations and compliance measurements.

In order to rectify this, Isthmus Montessori Academy Public hired a new employee to oversee reporting and compliance. This employee has been trained in WISEdata reporting, our student tracking system, and Student Information System. This data has also been changed in our Student Information System. This new employee has also been in close contact with a number of individuals at the Department of Public Instruction to ensure that Isthmus Montessori Academy Public has rectified previous data errors and has a shared understanding of expectations and compliance measures. As of Summer 2020, we are partnering with Oasys to better manage our data related to Student Services in an effort to meet compliance measures set in place by the Department of Public Instruction.

If you have any questions or require additional action to resolve this issue, please contact Carrie Marlette - Head of School and Special Education Program Coordinator, at carrie.marlette@imapublic.org or call (608) 661-8200.

In Service to the Children,

Kara Anderson
