Re: Data Errata

To Whom It May Concern,

For the School District of Lake Holcombe our K-3 total is correct; however, the economic disadvantage is off by 1 student. Last year our TFC was 46 for economic disadvantage. However, WISE Dash is reporting 45. That is because on the December 2021 snapshot we had 1 student that had been changed from Free to Normal status on 10/18/21 as we were not aware of the pause of the 30 day carryover. In other words, this student never should have been changed to normal status on 10/18/21. The correction was made on 2/1/22 (changed this student back to free status). The result is the December 2021 snapshot shows this student as Normal status, when the status should be Free.

The correct data is:

Economically Disadvantaged: 46

Not Economically Disadvantaged: 20

Total: 66

Please accept this letter as official notification of the error of data. Now that we have returned to pre-pandemic food service operations, an error such as this should not occur.

Sincerely,

Kurt Lindau
District Administrator
