

To Whom It May Concern,

While reviewing Marshall's 2021-2022 student demographic data, it was discovered that 129 students enrolled in Marshall Public Schools (please see chart below) should have been identified with an "economically disadvantaged" status in the district's Student Information System (Infinite Campus). This discrepancy was noted while reviewing the district details and student group information listed on the 2021-2022 Preliminary Secure Report Cards.

In October, this 2021-2022 student data was updated locally to reflect this important demographic information. At that time, Marshall worked closely with the Office of Educational Accountability at the WI Department of Public Instruction (DPI) to correct the actual count of students identified as economically disadvantaged on the final school and district report cards (*Case #: ECD Data for Marshall CAS-42766-G4P7W6*).

Next, Marshall Public Schools requesting that the 2021-2022 state data be retroactively revised to accurately reflect these changes. This is particularly relevant and time sensitive considering Marshall's eligibility for the DPI Achievement Gap Reduction (AGR) application and payments, as well as other state and federal grant resources.

Please accept this letter as official notification of the error of data. Procedures are now in place to ensure this data is entered into Marshall's student information system and reported properly on future data snapshots.

Sincerely,
 Randy J. Bartels, PhD
 Director of Instruction
 (608)655-3466 x1003
