## Data Errata Letter for School Year 2021-2022

**The Prescott School District did not include Economically Disadvantaged Status during the December 7, 2021 snapshot in WISEdata due to an unchecked field in our SIS, Infinite Campus. This error has been resolved with our SIS and that information should be flowing to WISEdata at this time. IT believes this was turned on prior to the pulls for the State assessments and appears to be in the calculations. However, the front page calculation for our district and all three schools has our Economically Disadvantage listed and calculated with zero percent.**

**Thank you,  
Michael Kosmalski  
Director of Teaching and Learning**
