Dear Ms. Gardner,

After speaking with you on the phone regarding the WISEstaff (PI 1202) I completed this chart to capture the information I felt could have been missing from my original submission. While I was working on the original submission I found that the staff listed below in the chart didn't have WISEids. I understood that upon submission WISEids would be created and sent to me. I didn't receive any. Subsequently I wasn't given access to the next set of screens to add additional information regarding their salary, benefits, contract days, etc. as appropriate to their positions.

I hope you will accept this chart with the most up to date information regarding these employees for the 2014-15 school year at Woodlands School East. If you have any further questions don't hesitate to contact me.
