RE: 2015-2016 WISEdata for Brandon Elementary School (Rosendale-Brandon School District)

Dear Melissa Aro,

2015-2016 WISEdata currently reflects incorrect data for Brandon Elementary School as a result of a large percentage of our students not showing accurate FAYs. This concern was identically an issue in the Report Cards, of which Yeng Chang, Education Consultant at DPI, was able to fix and has all pertinent information.

We have submitted two Help Desk Tickets to learn more about what caused this error, so recurrence can be avoided next year, but have yet to hear back. We will greatly appreciate any insight you might gain while amending what is reflected in WISEdata.

Sincerely,

Jill Englund  
Administrative Assistant  
Rosendale-Brandon School District
