• the two state schools, multi-district charter schools, DOC, DHFS or CCDEBs.
• summer school enrollment.
• early childhood enrollment (K3 & PK).
Data reasonability checks currently being done on CW1 & CW2 data.
Analysis of data within districts and across the state.
Identify training opportunities for Phase 2.
Document business rules to reinforce proper usage of data fields.

    - Section/Course Submission Guidelines

VENDOR CONFERENCE:
- New data field
  - Impact on Upload files
  - Impact on download files
  - Impact on CWCS user interface
- Existing data field (updates)
- Interface specification changes (updates/new)
- Validation message changes (updates/new)

DISTRICT TRAINING DETAIL:
- Mapping Courses (elementary, middle school and high school)
- When Should You Report Coursework Completion Records?
- Reporting Term Roll-up
- Section/Course Submission Guidelines (Alternative Ed, Virtual / Online Ed, Distance Ed, Dual Enrollment Credit, Project Based Learning and Special Ed)
Available reporting terms in Phase 2:
- Quarters (4)
- Semesters (2)
- Trimesters (3)
- Blocks (1–10)
- Annual (1)

During Phase 1 we noticed the same Section ID/Course were reported as both Quarters and Semesters or Quarters and Annual in the same school. Is this possible that the same course is taught in the morning as a quarterly course and then a different class in the afternoon as an annual course?
• Added the Elementary (NCES Prior to Secondary) School Course Codes
  • Not eliminating the WI DPI Elementary General Studies Course Codes during Phase 2 – SY2011-2012, they will remain in the tables for usage.
  • Additional level of rigor ONLY for the NCES Elementary School Course Codes (not to be associated with WI DPI Elementary Course Codes)
    • X – no specific level of rigor, used for exploratory courses
  • Additional business rule in the event a high school student is associated with an elementary course code.

Eliminate the PI-1215 Course Offerings Report this SY2011-12: the following now collected through CWCS (required or conditional fields)
• Part-time Open Enrollment District
• Dual Enrollment – Youth Options (UW) (PC) (TC) (YA)
• World Language (elementary survey question)

• Graduation Requirements – DPI’s intention to collect this data via the Survey Tool “Vovici”. The development of this solution is currently underway. Collection will be at the District and/or School level as requested by the districts throughout Phase 1 development/implementation.
Enroll date remains unchanged – must match WSLS Enroll Date.

- **WSN ID not found.** WSN ID entered was not found in WSLS District.
- **(Warning) Unexpected ‘School Code’ associated with student ‘WSN ID’.** This student’s WSN ID is associated with multiple schools within your district.
- **Invalid enrollment period.** No WSLS record exists for the WSN, District, School, and Enroll Date identified for this record.
- **No Students Reported in one or more schools where section data exists.** District Lock requested with no student or coursework completion data reported for school(s). However section/course/teacher records were submitted for these schools.
