Student Data Privacy is of utmost important to Wisconsin Department of Public Instruction (DPI) and the students we serve. DPI provides access Student Data Privacy training. The Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g; 34 CFR Part 99) is a federal law that protects the privacy of student education records. Directions

- Concentrator Graduate Follow Up Report Field Manual - will be updated and linked at [CTE Data Resources](#), under Additional Resources. Please read the manual each year.
- School districts and consortia participating in Perkins V are required to follow-up and contact CTE Concentrator Graduates to obtain their status in post-secondary education and/or employment.
 - follow-up is initiated in the second quarter after exiting from secondary education
- Data quality is very important for 3S1 - Post-Program Placement. A minimum of 80% response rate is requested for data validity and sampling across the state.
 - lack of responses can create an unreliable state sample
 - this data provides school districts with outcome results that should drive CTE curriculum decisions
 - provides feedback about career readiness at the local level
 - pay attention to low response rates from special population groups and how this could affect your Comprehensive Learning Needs Assessment
- Districts will access their certified list of CTE Graduates from WISEdash for District (demo on slide 9)
