## Dual Enrollment

Dual enrollment allows a student to be enrolled in a high school and a college course at the same time. Generally, it refers to a high school student who takes college-level courses and earns credit toward both the high school diploma and college credit. This document defines the wide variety of dual enrollment programs available throughout Wisconsin high schools and institutions of higher education (IHEs). For the purposes of Career Education data reporting in the WISEdata Roster collection, **districts should submit the appropriate program name (second column) based on the definitions below, not the more common names listed in the last column.**
