

*Exploration of the Wisconsin Framework for Principal Leadership  
and the Principal Evaluation Process*

Principal Evaluation Training Module 4:

# Facilitating Decision-Making

WISCONSIN DEPARTMENT OF  
PUBLIC INSTRUCTION

Carolyn Stanford Taylor, State Superintendent

# Introduction

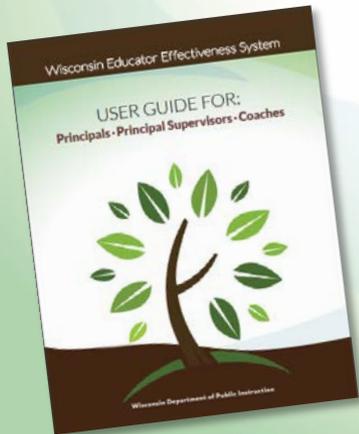

This Principal Evaluation Training Module is part of a series of six modules, designed to better familiarize principals, assistant or associate principals (APs), and evaluators of principals with the Wisconsin Framework for Principal Leadership (WFPL).

Each of the six modules uses a common school leadership task as a backdrop to explore the framework.

# Using the Training Module

The training is best used collaboratively as a group of both evaluators of principals and the principals or AP's they evaluate. Learning together, evaluators and school leaders will benefit from the activities and discussions about the components as well as the discussion of how the WFPL components can be seen in the school context. These discussions help contribute to a more reliable evaluation process.

- The module activities require that participants have a copy of the WFPL on hand.
- To access the WFPL, see the appendices of the [WI Educator Effectiveness System User Guide for Principals, Principal Supervisors, and Coaches.](#)

# Principals as Facilitators of Decision-Making Processes

1. **Identify** the need for a decision-making process
2. **Facilitate** or conduct the decision-making process
3. **Communicate** the results and implementing decisions

# The Principal's Role: Identification

As building leader, the principal must identify the need for decision-making processes.

- Conduct and use needs assessments (which can be decision-making processes in and of themselves)
- Prepare for both forward planning (strategic) processes and solving emergent issues
- Look for opportunities within decision-making to solicit input, involve others, and build capacity to accept decisions from the process

# The Principal's Role: Facilitation

As building leader, the principal must also guarantee that a decision-making process is conducted and completed in a manner that is:

- Inclusive, transparent, timely, ethical, and equitable
- Aligned to address the identified needs
- Aligned to policy and practice expectations

# The Principal's Role: Concluding

As building leader, the principal must guarantee that any decision made at the end of the decision-making process:

- Has strong, clear stakeholder support, even if consensus is not possible
- Is clearly communicated

# Domain 1: Developing Effective Educators

## 1.1 Human Resource Leadership

- As effective human resource leaders, principals recruit, select, develop and evaluate teaching staff with the competencies needed to carry out the school's instructional improvement strategies.
- They also develop and leverage teacher leadership talent and foster distributed leadership.

# Domain 1: Developing Effective Educators

## 1.1 Human Resource Leadership

### 1.1.1 Recruiting and Selecting

#### Proficient School Leadership for This Component:

- Within discretion provided by district policies, adapts hiring process to school needs and organizes school-based process to fill vacancies in timely and fair manner
- Consistently applies school's vision, mission and school improvement priorities to recruitment and selection decisions
- Consistently recruits for hard-to-staff or key positions, rather than relying only on district-referred candidates
- Involves teacher leaders in selection process for instructional staff as often as possible

# Domain 1: Developing Effective Educators

## 1.1 Human Resource Leadership

### 1.1.2 Assignment of Teachers and Instructional Staff

#### Proficient School Leadership for This Component:

- Consistently assigns teachers and other instructional staff to positions based on qualifications and student academic needs, and to promote equity in access to effective instruction and support

# Pause

Review the WFPL for the shift in the featured component language from Unsatisfactory to Distinguished. Think about what this looks like in practice.

For the Summary Year self-assessment, principals determine areas of focus by reflecting on their practice and identifying levels of performance that correspond to their self-assessment.

The attributes within the levels of performance inform the principals' goals. They also help evaluators and principal coaches provide feedback on principals' practice.

## Discussion

Discuss the key differences between Basic/Developing and Proficient practice.

- *What might a principal want to focus on to move from Basic/Developing to Proficient practice?*

Discuss the key differences between Proficient and Distinguished practice.

- *What might a principal want to focus on to move from Proficient to Distinguished practice?*

## Discussion

In what ways do these components, working together, focus an evaluator's attention on a principal's efforts leading professional activities?

- **1.1.1** Recruiting and Selecting
- **1.1.2** Assignment of Teachers and Instructional Staff
- **1.1.5** Distributed Leadership
- **1.2.3** Staff Collaboration
- **2.2.1** School Climate
- **2.2.2** Communication
- **2.2.3** Change Management and Shared Commitment

## Activity

Create a graphic that shows the relationship between the components that support facility management and those that support facilitation of decision making:

- 1.2.1 Vision and Mission
- 2.3.1 Learning Environment Management
- 2.3.2 Financial Management
- 2.3.3 Policy Management
- 1.1.1 Recruiting and Selecting

# Seeing the Components in Action

## Simulation

The icon at the bottom of this slide links to a simulation designed to explore the decision-making process within a simulated scenario.

Individually or as an administrative team, click the link to begin your exploration.

At the end of the simulation, you will be asked to reflect on the decisions you made as they relate to specific WFPL components of focus within this module. Take notes using page 1 of your Participant Packet during the training.

*Take notes on page 1 of your Participant Packet.*

## Discussion

After engaging with the simulation: Review and discuss the available evidence for each of the following components:

- **1.1.1** Recruiting and Selecting
- **1.1.2** Assignment of Teachers and Instructional Staff
- **1.1.5** Distributed Leadership
- **1.2.3** Staff Collaboration
- **2.2.1** School Climate
- **2.2.2** Communication
- **2.2.3** Change Management and Shared Commitment

Part III:

# Working with the Components in Your Context

# Examining the Principal's Role

Thinking about the components identified in this module, first consider opportunities for facilitation of decision-making groups that currently exist within your own building and/or district context for the evaluator to observe.

Examples could include:

- Creating a building schedule
- Data teaming
- Adding new courses
- Budgeting
- Spending funds raised by a parent group
- Professional development planning

# Local Context

Regarding the facilitation of decision-making groups within your own context:

- What opportunities already exist?
- What kinds of artifacts might be generated that contain evidence?
- In what ways could these opportunities be observed to identify evidence of principal practices?

*Record your responses on page 3 in your Participant Packet.*

2018 Principal Evaluation Training Module

**You Do**

Think about opportunities—known or that can be planned—you may have within your context to facilitate a district- or building-level decision-making team. Examples may include:

- Schedule construction for a building
- Curriculum review team work
- Budgeting
- Data teams or academic intervention planning
- Professional Development planning
- Identifying strategic building initiatives
- Hiring processes
- Adding new courses
- Shared SLO focus area identification
- Spending Funds raised by a parent group

Depending on your district, discuss this in ways that are locally relevant or support the principal evaluation process for your context. For example, discuss this as a full administrative team, or perhaps by similarly situated roles such as HS principals and AP's in the district.

Use the space below to list the opportunities you have identified, possible artifacts that may be generated by the process, what behaviors would be observable and by whom.

Opportunity Identified	Artifacts that might be generated.	What would be observable? By whom?
Example: Hiring process	Example: Agenda and timeline that a principal creates or writes from WECAY screening discussions.	Example: Which the principal facilitates/discusses. Look for ways the principal facilitates equitable representation or perspectives from discussion after the interview, managed over dissenting or under-participating members, or equate to build consensus.

## Discussion

From the information you have identified, consider a few common opportunities that are shared among multiple principals.

- Do any of these activities present a way for the principal evaluator's (example: Superintendent) work to be both efficient and meaningful?
- How might they facilitate horizontal conversations (among peers) and vertical conversations (with supervisors)?

Questions continue on the next slide

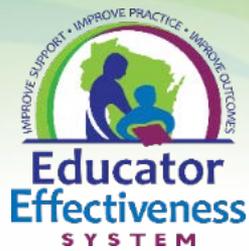

## Discussion

Additional questions for discussion:

- How might any of these opportunities demonstrate progress or accomplishment on building-level initiatives or priorities?
- How might these opportunities also be aligned to your district or strategic planning priorities?
