

Frayer Model

Wisconsin State Standards Strand

Language

- Vocabulary Acquisition and Use

Grade Level
K-5

Purpose

Use with students to support vocabulary development: introduce new vocabulary words and explicitly teach how to use resource materials

When to Use

Before Reading
During Reading
After Reading

Grouping

Whole class
Small group
Partners
Individual

ABOUT THE STRATEGY

A FRAYER MODEL is a graphic organizer that helps students determine or clarify the meaning of vocabulary words encountered while listening, reading, and viewing texts. It is used before reading to activate background knowledge, during reading to monitor vocabulary, or after reading to assess vocabulary. This strategy supports students' acquisition of new words and using resource materials by providing students with a structure to examine words for their definitions, characteristics, examples, and non-examples. Word learning requires multiple exposures to the word within meaningful contexts.

IMPLEMENTATION OF THE STRATEGY

- Select a word from a self-contained passage of text.
- Establish the purpose of the strategy.
- Provide students with a Frayer Model and use a think-aloud as you model the process of using the Frayer Model to analyze the word and determine its meaning.
 - Write the selected word.
 - Write the characteristics of the selected word. Scaffold as needed.
 - Write examples of the selected word. Scaffold as needed.
 - Write non-examples of the selected word. Scaffold as needed.
 - Write a definition for the selected word in your own words. Scaffold as needed.
 - Check the meaning of the word with the dictionary definition.
- Have students use the Frayer Model to determine the meaning of words. Scaffold as needed.

MEASURING PROGRESS

- Teacher observation
- Conferencing
- Student journaling
- Frayer Model as a formative assessment
