How to Access DEWS and CCREWS

Please follow the instructions below to access the Dropout Early Warning System (DEWS) and the College and Career Readiness Early Warning System (CCREWS). If you need help please contact the WISEdash Helpdesk by starting a help ticket at https://dpi.wi.gov/wisedash/help/ticket.

Step 1. Get a WAMS ID (Optional)

Follow the instructions at https://dpi.wi.gov/wise/secure-home-info to get a Web Access Management System (WAMS) ID.

If your district is using the "Sign in with Google" button for Step 3 you do not need to get a WAMS ID. For more information see https://dpi.wi.gov/wise/secure-home-info.

Step 2. Get WISEdash for Districts Access from Your Application Administrator

Follow the instructions at https://dpi.wi.gov/wise/secure-home-info to get access to WISEdash for Districts. You will need to have Economic Indicator Analyst or Student Detail Analyst level access to view DEWS and CCREWS.

Step 3. Login to WISEdash for Districts

Access to all secure tools offered by DPI is available through Secure Home. First, enter https://apps2.dpi.wi.gov/secure/home in your browser.

Next, on that Secure Home webpage, either enter your WAMS User ID and password and click the "Sign in with WAMS" button or click the "Sign in with Google" button.

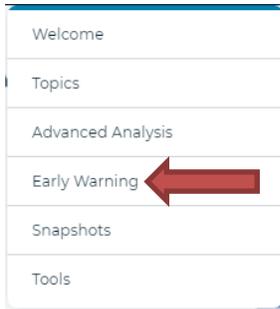

Next select WISEdash for Districts 2.0.

Step 4. Go to the Early Warning Dashboard

First click the "Product Menu" button in the upper left corner of WISEdash for Districts.

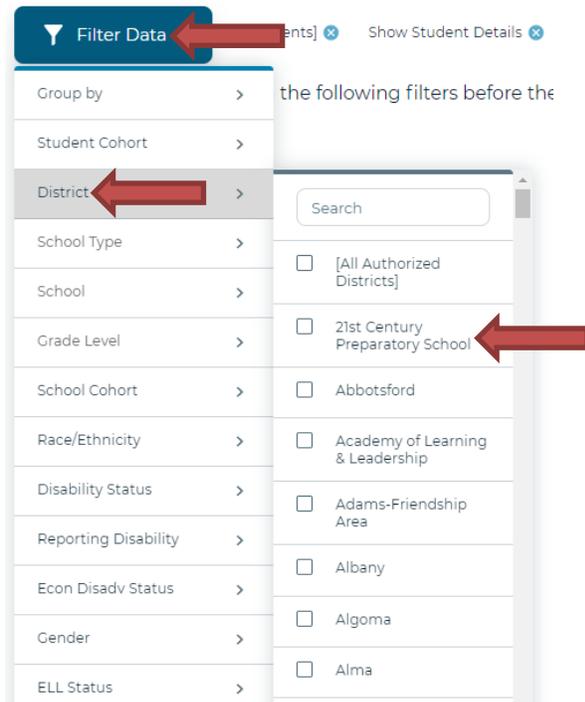

Then select the Early Warning page.

Then select the Early Warning tab.

Step 5. Select a District

Select your district in the District menu within the Filter Data menu.

Step 6. View DEWS or CREWS Information in the Student List

The student list is displayed. The list contains DEWS information by default.

- Latest DEWS Outcome
- DEWS Mobility

Filter or sort the student list by clicking the student list header. For example, if you only want to include students where the Latest DEWS Outcome is High, click the Latest DEWS Outcome drop-down menu and select High.
