

Looking Back... Moving Forward

I took a walk down memory lane to write this post. It all started with a viewing of the above [video](#) I created several years ago to capture the incredible arts education opportunities our students have in Wisconsin. The video compilation of events, performances, art exhibits, classroom activities, awards, residencies, and tour photos showcases ways our learners have been engaged in the arts in Wisconsin. I continue to be energized by the work being done in our school communities. We have exceptional, knowledgeable, and caring educators who continue to strive for the best for our children through the arts.

Please continue to connect with me to help us move forward and build on the amazing opportunities we have in arts education. Let me know how I may support your work in the arts classroom. Continue to check online for professional development and networking opportunities shared to support you as a learner.

I wish you a wonderful summer!
