In recognition of the importance of American Indian nation languages and their relationship to student engagement and academic achievement, the Wisconsin Department of Public Instruction awards grants on a competitive, annual basis to school boards, consortia of school boards, to a CESA, or to Head Start agencies who partner with a tribal education authority or government. These grant funds for the American Indian Language Revitalization – State Grant may be used for language activities related to providing instruction in one or more tribal languages as curricular or co-curricular offerings including, but not limited to, curriculum design, creation of appropriate assessment instruments, professional development activities, language-focused parent and community engagement activities, instructional delivery, and program evaluation. A final report detailing grant activities and outcomes will be due by July, 2025 with final claims due September, 2025.

In this section, describe the stakeholders in place to ensure successful implementation of grant project. Limit responses to space provided.

1.	Sta	koh	ı۸I	da	

Stakeholders include the population to be served, far	nilies, community partners, school	ol staff and administrators,	as well as agency administrators.
Be sure to include stakeholders who demographically	represent the target population((s).	

a. Who are the stakeholders identified for this grant project and what are the roles of these stakeholder groups in the implementation of the grant project?

b. What input did the stakeholders above provide that informed this grant project?

c. How will stakeholders continue to provide input if the grant project is funded?

Page 4 PI-9330

VII. PLAN (Needs Assessment)

Identify the need(s) to be addressed with grant funds. Applicants must have an organized and systematic approach to use data for meaningful analysis. Data analysis includes an assessment of the needs experienced by the target population. *Limit responses to space provided*.

1. Demonstration of Need

Example: Statewide assessment and local screening data shows that students with disabilities (SwD) are significantly less proficient in reading than students without disabilities (SWoD), with 12% of our students with disabilities reaching proficiency last year as compared to 40% of our students without disabilities.

b. What is the likely root cause(s) (i.e., factors, resource inequities, opportunity gaps, etc.) contributing to the need(s) to be addressed by this grant project?

Example: The specially designed instruction provided to students with disabilities has not been consistently aligned to individual student need or the standards-based general education curriculum.

c. Define your Priority Area(s) or Statement(s) to address the root cause of the needs. What is your approach to address one or more of the root causes for this grant project and how does this grant project fit into this approach? (This is the student outcome priority statement or adult practice priority statement in the Data Inquiry Journal (DIJ). This potentially could be written using the following sentence stem "We believe we can improve ... if we ...")

Example for multi-year grant project: We believe we can begin to close the gap between the reading proficiency rates of SwD and SwoD if we provide professional learning and job embedded coaching to our general and special education teachers on the development and provision of specially designed instruction that is aligned to student need and designed to support student growth in the general education curriculum.

VIII. DO (Action Plan)

Develop an action plan to implement the proposed grant program. The plan must include SMART (Specific, Measurable, Attainable, Relevant and Timely) goals that align with the priority area(s)/statement(s) defined in the needs assessment (Section VII, question 1.c). Applicants may have more than one SMART goal for the same priority area/statement.

For each SMART goal listed, include the action step(s) (i.e., activities to be implemented) to achieve the goal. Action steps may include evidence-based strategies (e.g., activity, strategy, or intervention that demonstrates a positive effect on improving student outcomes and/or adult practices) or other activities to achieve the goal. Applicants may have more than one action step for each goal.

For each action step, list the planned completion date, evidence of completion (description of how the applicant will know the action is complete and often reflects the goal), and the personnel responsible for completing the action.

Action Plan—Example

Priority Area/Statement and Supporting Data #1 (This statement should align with Plan Section 1.C)

Example for multi-year grant project: We believe we can begin to close the gap between the proficiency rates of SwD and SwoD if we create a consistent literacy framework. This framework will be created with input from literacy expertise and leadership to use for universal and supportive instruction and teacher professional development.

SMART Goal to Address Priority Area/Statement #1

Increase the ELA achievement of all 6-8 grade students from 48% proficiency to 60% proficiency, while accelerating the achievement of SwD so that at least 40% reach proficiency on the Forward ELA exam by June 30, 2022.

Action Step	Timeline/Planned Completion Date	Evidence of Completion	Personnel Responsible
Develop a literacy framework	November 2021	Documented and approved by school board	Literacy Specialist
Align resources to framework	December 2021	Resources approved by school board	Literacy Specialist
Plan and carryout professional development on the literacy framework, standards and materials to occur monthly.	June 2022	Staff feedback on the effectiveness of professional learning and learning needs, and walk-through data aligned to professional learning objectives to determine additional professional learning needs.	Literacy Specialist
Hold coaching sessions with all general and special education staff responsible for literacy instruction to ensure the literacy framework is implemented with fidelity and individualized needs are being met.	December 2021	Topics of coaching sessions; number of coaching on each of the topics; walk-through data aligned to professional learning and coaching objectives to measure fidelity and next steps for professional learning.
