How does your school reach out to and involve families and the community in children’s learning? This tool is based on the Six Types of Partnerships. It can help your school

- Assess the strength of the partnerships it conducts,
- Indicate the focus or direction of your partnerships, and
- Identify areas that can be changed.

Your school may do all, some, or none of the activities or approaches listed. Not every activity is appropriate for every grade level. The items listed were selected because they show that schools in which they happen are meeting the challenge to involve families in many different ways. These activities can improve school climate, strengthen families, and increase student learning.

Your school may also be conducting other activities. Be sure to add them under each type of involvement and include them in your school’s assessment of its key partnership practices.

**DIRECTIONS:** Review the rating scale that follows. For each item, write the rating number that comes closest to describing your school. Practices that are strong and prominent will receive a score of 4. Practices rated 1, 2, or 3 are not yet part of the school’s program or need improvement.

After rating your school partnership practices, use the three Discussion Questions on the back page to assess the strengths, goals, and direction of your school partnerships for the next one to three years. Ask the members of your school Partnership Action Team or another parent-teacher decision-making group to participate in this process.

**Rating Scale**

3. **Sometimes.** Happens in some classes. Receives minimal or modest time or emphasis across grades. Included in, but not a notable part, of the school’s parent involvement plan.
4. **Frequently.** Happens in most or all classes or grade levels. Receives substantial time and emphasis. An important part of the school’s parent involvement plan.
