

Wisconsin Future Ready Report Summary, 2016-2017

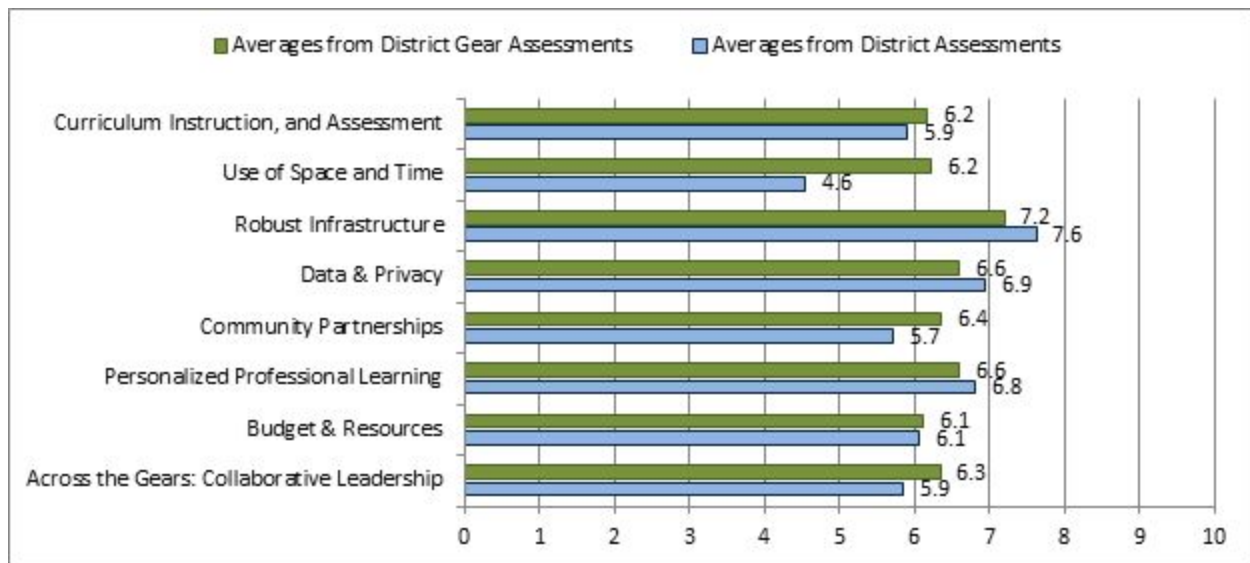

The Future Ready Framework is designed to help school districts create an **action plan** to move as quickly as possible towards preparing students for success in college, career, and citizenship. This action plan can only be accomplished through a systemic approach to change, as outlined in the Future Ready Framework. With **personalized student learning at the center**, a district must align each of the seven (7) key categories, called "Gears", in order to ensure a successful digital conversion.

The 7 Gears are as follows:

- *Curriculum, Instruction, and Assessment*
- *Use of Space and Time*
- *Robust Infrastructure*
- *Data and Privacy*
- *Community Partnerships*
- *Personalized Professional Learning*
- *Budget and Resources*

The [Future Ready web site](#) provides a [thorough explanation of what each gear means](#).

In Wisconsin from 2015-2017, 65 school district leaders and stakeholders took Future Ready self-assessments to guide them in creating a Future Ready Action Plan for their districts. The assessments yielded a score for each of the seven Gears. Compiled results are below.

Score ranges: Investigating (0-3); Envisioning (4-5); Planning (6-7); and Staging (8-10).

District leader average scores are in dark blue and stakeholder average scores are in light blue.
