Curricular content in print vs. digital format*

*This data reflects average percentage amounts of content in each format. For the example of the 0-499 Students grouping, this data does **not** say that 64% of schools use **all** print content for curriculum, but rather that in the grouping, on average, schools have 64% of their curricular content in a print format, and 36% in a digital format.

0 - 499 Students
