Foreword

“Teachers who are well-prepared and well-mentored are much more likely to stay in teaching, as well as to be effective.”

--Linda Darling-Hammond¹

As State Superintendent, I am strongly committed to ensuring that every student has access to the educational resources and rigor they need at the right moment in their education, across race, gender, ethnicity, language, disability, sexual orientation, family background, and/or family income. The most impactful resources in our schools are highly skilled educators, so I support the investments our state makes in high-quality preparation of our educators. The processes outlined in this handbook will help ensure that preparation programs continue to produce well-qualified candidates.

I am grateful for our educator preparation program partners who helped us review the agency’s program approval process in light of the rewritten Wis. Admin. Code sec. PI 34 that went into effect August 1, 2018, and develop this revised handbook. I believe that our continued partnerships will provide our state with well-prepared educators who are ready, willing, and able to ensure every child graduates, college and career ready.

Carolyn Stanford Taylor
State Superintendent

Initial Approval for Educator Preparation Programs

The Initial Approval process is a comprehensive review of an entity's educator preparation program. The review process ensures that the entity meets the performance-based standards and statutory and rule requirements specified in Wisconsin Statute 118.19 and Wisconsin Administrative Code section PI 34. The process requires that the entity develops collaborative relationships with the PK-12 education community. The process applies to all undergraduate, post-baccalaureate, graduate, and non-degreed educator preparation programs in Wisconsin that lead to a license in any of the teaching, pupil services, and/or school administration categories. Under the direction of the State Superintendent of Public Instruction, this process is carried out by the Teacher Education, Professional Development and Licensing team.

Initial Approval Review

The purpose of the Initial Approval review is to ensure that the entity meets the requirements of Wis. Stat. sec.118.19 and Wis. Admin. Code sec. PI 34. During the review, the entity provides evidence of a performance-based educator preparation program. An entity seeking Initial Approval will submit an Educator Preparation Program Report (narrative) per Wis. Admin. Code sec. PI 34.007 that is no longer than fifty pages and *Appendix A*.

Educator Preparation Program Report

The Educator Preparation Program Report is prepared by the entity. It provides a description of the entity's professional education program and an overview of how the entity addresses the requirements of Wis. Admin. Code sec. PI 34. The Educator Preparation Program Report is the foundation for the *New License Program Report*.

New License Program Reports

For each program leading to licensure, a *New License Program Report* is developed and submitted to the department by the entity. Approval by the department is required prior to enrolling candidates. Guidance for preparing the report is listed in **Section 5: Approval to Offer a New License Program**.

Educator Preparation Program Report Outline

Cover Page

The cover page should include contact information that will clearly identify the entity requesting approval. The following information should be included:

- Entity name and mailing address
- Name and contact information of report preparer including: name, title, mailing address, phone, fax, email address
- Date of program report submission
- Authorized signature.

Description of the Entity

A brief description of the entity introduces the report. This introduction provides a foundation for reviewers to understand the context of the educator preparation program. The entity must provide information on the following:

- A brief history, overview, or description of the entity; the unique characteristics of the entity; the entity type, size, mission, and student demographics
- If the entity is an institution of higher education, the entity should include a brief overview or description of the school, college or department and how it fits into the overall structure of the institution as well as unique characteristics of the education preparation program.

For each component section that follows in the report, the entity shall provide a brief narrative to discuss the component. This discussion is meant to provide an overview of the component. The entity may provide links to electronic documents or titles of documents that can be accessed for further clarification and evidence.

Policies and Practices

This section of the report addresses the entity's relevant policies and practices affecting the preparation of educators required in Wis. Admin. Code sec. PI 34.007. It should address the specific policies and practices that are in place. These policies should be clearly documented and shared with faculty and staff. Policies affecting candidates within the program

should be clearly documented and shared with candidates. Information to address in this section includes:

- The organization and administration of the educator preparation program (if the entity is an institution of higher education)
- Faculty
- Facilities, technology, instructional resources and support (if the entity is an institution of higher education)
- Student services
- Program performance
- Student recruitment, admission and retention.

Conceptual Framework and Standards

This section of the report addresses the research-based conceptual framework as required in Wis. Admin. Code sec. PI 34.007. The conceptual framework represents the shared vision and philosophy of an educator preparation program. It provides direction for the program. It is research-based and consistent with the entity's mission.

The conceptual framework is the articulation of the educator preparation program's underlying beliefs and values. Implicit in a philosophy are the beliefs as to what program completers should know (knowledge), be able to do (skills), and be committed to (dispositions). The entity's knowledge, skills, and dispositions serve as the performance-based standards and performance tasks for all programs. While it is expected that individual licensure programs will have knowledge and skills unique to individual license areas, there should be an overarching set of performance tasks based on the standards for all program completers to be successful in an educator preparation program. Information to address in this section includes:

- Performance-based program
- Assessment system
- Statutory requirements
- Clinical program
- Educator preparation program evaluation.

Assessment System

This section of the report discusses the assessment system in place from candidate admission to completion as required in Wis. Admin. Code sec.

PI 34.007. The educator preparation program must have an assessment system that is aligned to its conceptual framework and is used to evaluate the readiness of its candidates to be endorsed for an educator license.

The educator preparation program must provide evidence of a comprehensive set of evaluation measures that allow for the assessment of candidate performance throughout the program. The performance-based assessment system must include assessment of the five areas identified in Wis. Admin. Code Sec PI 34.021:

- Communication skills
- Human relations and professional dispositions
- Content knowledge for subject area programs
- Pedagogical knowledge
- Performance in clinical program.

The system identifies levels of proficiency or benchmarks that can clearly evaluate student progress. Assessments should be developmental, multiple, and measurable over time. Within this section, the entity must detail where assessments occur and how the results of these assessments are communicated to candidates as they progress towards accomplishment of the Wisconsin educator standards in Wis. Admin. Code sec. PI 34 subch. II. Further, the entity must identify how the assessments are used to evaluate and improve the educator preparation program.

Collaboration

This section discusses the systematic, ongoing collaboration with employing schools and school districts, faculty engagement in professional practice, and constituent group involvement in the entity as required in Wis. Admin. Code sec. PI 34.007. Collaboration requires evidence of a system of ongoing relationships with schools, school districts, community organizations, and other agencies charged with the task of educating children.

Documentation

The entity will collect and maintain electronic documentation for the department to review using *Appendix A*. Documents shall include handbooks, policies and procedures, assessment plan, faculty resumes/vitae, or other documentation that provides evidence of meeting these requirements. The entity may reference these documents in their *Educator Preparation Program Report* and *New License Program Reports*. The entity shall submit *Appendix A* with its *Educator Preparation Program Report*.

Approval Granted by State Superintendent

The state superintendent shall decide within 60 days of receiving an entity's *complete* submission of evidence under Wis. Admin. Code sec. PI 34.007 to grant or deny approval to become an approved educator preparation program.

2. Change of ownership
3. Content guidelines or standards.

The educator preparation program must submit a narrative communicating the substantive changes and updated Appendix A. Written approval is required from the department to prior implementing the substantive change.

Denied Approval

If the program approval process identifies evidence that the educator preparation program does not meet all of the requirements under Wis. Admin. Code sec. PI 34 subch. III and IV, the entity will be denied approval. As required in Wis. Admin. Code sec. PI 34.009, the denial letter shall include the following:

- The legal and factual basis for the denial, including the specific area(s) of noncompliance
- The educator preparation program's appeal rights.

An entity that is denied approval may revise and resubmit an *Educator Preparation Program Report* to address deficiencies identified in the denial. The entity may also appeal the denial.
