INTRODUCTION

1997 Wisconsin Act 27 created the first statewide inter-district open enrollment program in Wisconsin.¹ The program consists of two parts: full-time inter-district open enrollment and part-time inter-district open enrollment.

This report is prepared pursuant to Wisconsin Statutes § 118.51 (15) (c) which requires the Department of Public Instruction to:

Annually submit a report to the governor, and to the appropriate standing committees of the legislature under s. 13.172 (3), on the number of pupils who applied to attend public school in a nonresident school district under this section [the full-time inter-district public school open enrollment program], the number of applications denied and the bases for the denials, and the number of pupils attending public school in a nonresident school district under this section.

This report covers the three-year period from 2000-01 to 2002-03.

The report provides more than the minimum information required by the statute, including: a description of the program, tables showing the number of applications and transfers by grade, by CESA, by race, and by special education status.

The report provides information about appeals of school district denials of open enrollment applications, including reasons for denial and outcomes of the appeals.

The report provides information about the number of low-income parents who received transportation reimbursement, including the total amount of transportation reimbursement paid, the average reimbursement per student and the average number of miles students were transported.

The report also contains information about the part-time inter-district open enrollment program.

A number of appendices provide much of the above data on an individual school district basis.

The report was prepared by Mary Jo Cleaver, Public School Open Enrollment Consultant, with assistance from Scott Eagleburger, IS Resources Support Technician, and Bob Soldner, Director, School Management Services.

The public school open enrollment web site at www.dpi.state.wi.us/dpi/dfm/sms/psctoc.html provides general and specific information about the open enrollment program, including: an informational brochure for parents, application forms and instructions, text of the open enrollment statute and administrative rule, informational bulletins for school district administrators, the open enrollment timetable, frequently-asked questions and other information.

EXECUTIVE SUMMARY AND ANALYSIS

Full-Time Open Enrollment

This report covers the third, fourth and fifth years of the open enrollment program. As noted in previous reports, this is a quantitative, not a qualitative analysis of the program. The report details how many students apply to transfer, how many actually do transfer and the number of applications and transfers by district. It does not provide information about individual transfers, such as which school districts receive students from which other school districts. Thus, we do not believe the report data alone support the drawing of any conclusions about reasons for student transfers, parental satisfaction with the program, or the effect of the program on individual school districts.

The program continues to grow, as shown below.²

School Year	New Applications	% Increase	Total Transfers (Cumulative)	% Increase
1998-99	5,926		2,464	
1999-00	6,691	12.9%	4,858	97.2%
2000-01	7,616	13.8%	7,213	48.5%
2001-02	9,523	25.5%	9,602	33.3%
2002-03	11,859	24.5%	12,378	28.9%

Participation by low-income students continues to increase, at least as far as low-income can be measured by claims for transportation reimbursement available to low-income parents:³ (Note, this statistic is somewhat skewed because reimbursement for students attending under “tuition waivers”⁴ are also included.)

School Year	Number of Families Receiving Transportation Reimbursement	Number of Students for Whom Reimbursement Was Paid	Percent of All Transfers
1998-99	94	142	5.8%
1999-00	149	243	5.0%
2000-01	246	405	5.6%
2001-02	379	617	6.4%
2002-03	467	768	6.2%

Participation by students with disabilities continues to increase as well, though generally at a smaller rate than increases in regular education transfers for all but one year. However, there was a large jump in transfers from 1998-99 to 1999-00 and a large jump in both applications and transfers from 2000-01 to 2001-02.

	1998-99	1999-00	2000-01	2001-02	2002-03
Total Applications	5,926	6,691	7,616	9,523	11,859
Students w/Disabilities	580	667	752	1,090	1,192
Percent Increase		15.0%	12.7%	44.9%	9.4%
Percent of SwD to Total	9.9%	10.0%	9.9%	11.4%	10.1%

	1998-99	1999-00	2000-01	2001-02	2002-03
Total Transfers	2,464	4,858	7,213	9,602	12,378
Students w/Disabilities	171	367	514	789	987
Percent Increase		114.6%	40.0%	53.5%	25.1%
Percent of SwD to Total	6.9%	7.5%	7.1%	8.2%	7.8%

² 1998-99 and 1999-00 data used in comparisons are from the reports for those years. The reports are available on the open enrollment web site.

³ Some school districts provided transportation and some low-income parents may not have applied for reimbursement, so it is likely that the total number of low-income participants may be higher than the transportation reimbursement data indicate.

⁴ Wis. Stats. § 121.84 (4)

Students with disabilities were denied open enrollment at a higher rate than non-disabled students:

School Year	“Regular Education” Students		Students with Disabilities	
	% Denied by Nonresident District	% Denied by Resident District	% Denied by Nonresident District*	% Denied by Resident District*
1998-99	19.6%	9.2%	35.5%	22.1%
1999-00	19.3%	2.8%	29.7%	13.8%
2000-01	14.3%	2.5%	22.3%	14.1%
2001-02	20.1%	4.6%	23.9%	14.7%
2002-03	17.9%	3.2%	23.0%	14.5%

*Includes denial for all reasons, not only those related to special education

Open enrollment continues to be a statewide program with application and transfers occurring in every Cooperative Educational Service Agency (CESA) region in the state. As expected, the largest number of transfers occurs in the CESA 1 region, which includes Milwaukee and many of its suburbs. However, when the percent of statewide transfers is compared to the percent of statewide enrollment, Milwaukee has fewer transfers than its “share.”

It is difficult to analyze participation by minority students, since the majority of inter-district minority student transfers occurs under the chapter 220 desegregation program in the Milwaukee and suburban areas, rather than under open enrollment. Even so, minority students in the Milwaukee area do participate in open enrollment and their participation is growing at the same time that participation in the chapter 220 program is decreasing (see table below). However, minority student interest in open enrollment is not limited to the Milwaukee and suburban area. Minority student participation outside the CESA 1 (Milwaukee and suburban) area comprised 53.9% of minority student transfers in 2000-01; 44.5% in 2001-02 and 40% in 2002-03.

Follow-through rates (the number of approved applications that result in transfers) varies from year to year, but continues to hover near 60%. Follow-through rates of students with disabilities is generally lower than for all applications.

	1998-99	1999-00	2000-01	2001-02	2002-03
% of Eligible* Students Who Transferred	56.4%	65.8%	58.8%	58.3%	56.1%
% of Eligible* Students w/Disabilities Who Transferred	55.5%	68.0%	54.3%	53.3%	49.5%

* “Eligible” students are those whose new applications were not denied by either school district.

Twenty-nine point three percent of students who first transferred in the 1998-99 school year were still attending the nonresident school district in 2002-03; 41.1% of 1999-00 new transfers were still attending in 2002-03; 53.9% of 2000-01 transfers and 71.2% of 2001-02 transfers were still open enrolled in 2002-03.

Five-year-old kindergarten and ninth grade continue to be the most popular grades for applying to enter nonresident school districts under open enrollment, these two grades comprising from 28% to 30% of applications each year. Actual transfers somewhat follow this trend, though as time goes on, participation in the high school grades has tended to be close to equally spread across the four grades.

About 1.4% of all school district-enrolled students were open-enrolled in the 2002-03 school year. Following is a comparison of open enrollment participation with that of other some types of parental options in Wisconsin:

School Year	Open Enrollment Transfers	Inter-District Chapter 220 Transfers	Milwaukee Parental Choice Program*	School District Sponsored Charter Schools**	Home-Based Private Educational Programs***
1998-99	2,464	5,628	6,085	2,880	18,503
1999-00	4,858	5,555	7,609	3,422	19,837
2000-01	7,213	5,295	9,619	7,921	20,382
2001-02	9,602	4,936	10,882	13,329	21,013
2002-03	12,378	4,577	11,670	15,593	21,288

* Student count on the third Friday in September

** Includes students who are open enrolled.

***Excludes kindergarten.

Open enrollment is funded by a transfer of funds from the resident school district to the nonresident school district for regular education students. For special education, the resident school district pays tuition directly to the nonresident school district. The total amount of aid transferred increased each year, fueled both by increases in student participation and in the per pupil transfer amount:

	1998-99	1999-00	2000-01	2001-02	2002-03
Per Pupil Transfer Amount	\$4,543	\$4,703	\$4,828	\$5,059	\$5,241
Total Aid Transferred	\$9,579,946	\$19,609,504	\$30,468,058	\$42,458,620	\$57,407,563

Part-Time Open Enrollment

The part-time open enrollment program allows high school students who are attending public school in their resident school districts to take up to two courses in nonresident school districts.

The program's greatest participation was in its first year, 1998-99, in which 76 students took 50 courses in 24 nonresident school districts.

Students took courses in areas of agriculture, art, business, driver education, English/language arts, foreign language, mathematics, music, physical education, science, social studies and technology. Courses ranged from basic level, such as music/keyboarding 1, Spanish 1 and beginning computer science; to advanced placement courses in macroeconomics, calculus, biology and U.S. history. Advanced Placement (AP) courses were taken in English, German, Spanish, calculus, chemistry, physics, psychology, and U.S. history.

THE FULL-TIME PUBLIC SCHOOL OPEN ENROLLMENT PROGRAM

I. DESCRIPTION OF THE FULL-TIME OPEN ENROLLMENT PROGRAM

A. Application, Approval and Denial, Reapplication

Under the full-time open enrollment program, students in grades kindergarten to 12 may apply to attend any public school district in the state. Parents may apply for children to attend 4-year-old kindergarten⁵, prekindergarten, early childhood education and school-operated day care only if the child's resident school district offers the same type of program and only if the child is eligible for the program in the resident school district. Beginning with 2001-02 school year applications, a student may apply to no more than three nonresident school districts in any school year.⁶

The open enrollment statute sets out a specific schedule for application, notification of approval and denial, appeal, and notification of intent to attend.⁷ The application period always occurs during a three-week period in February. Parents must be notified of approval or denial by early April.

School districts may deny students' applications only for specific criteria set forth in the statute:

- A nonresident school district (the district the student wishes to attend) may deny a student's application only for the following reasons (and only if specified in school district policy):
 - If space is not available in the school, program, class or grade the student would attend. If there are more applications than there are spaces available, the nonresident school district must accept or reject applications on a random basis, except the school board must give preference to students who are already attending school in the nonresident school district and to their siblings.
 - If the student has been expelled during the current or two preceding school years (or whether disciplinary proceedings are pending) for certain violent offenses.⁸ In addition, a school district may deny a student's enrollment if the student is currently serving an expulsion that extends into the school year for which the student has applied for open enrollment.⁹
 - If the student has been referred for a special education evaluation, but has not yet been evaluated.
 - If the special education and related services required by a student's individualized education program are not available in the school district or if there is no space in the special education program or related services required by the student's individualized education program.
 - For school districts that participate in the chapter 220 integration transfer program¹⁰, if accepting the student would increase racial imbalance in the school district.
- A resident school district (the school district in which the student resides) may deny a student's application only for the following reasons:

⁵ For the 1998-99 through 2000-01 school years, this restriction applied only to prekindergarten, early childhood education and school-operated day care; and students were able to apply for 4-year-old kindergarten without restriction. 1999 Wisconsin Act 117 provided that, beginning with open enrollment applications for the 2001-02 school year, a student may participate in open enrollment for 4-year-old kindergarten only if the student's resident district also offers 4-year-old kindergarten and the student is eligible for the program in the resident district.

⁶ See 1999 Wisconsin Act 118

⁷ See Wisconsin Statutes § 118.51 (3)

⁸ See Wisconsin Statutes § 118.51 (5) (a) 2.

⁹ See Wisconsin Statutes § 120.13 (1) (f)

¹⁰ See Wisconsin Statutes subch. VI of ch. 121

- The school board may adopt a policy limiting the number of students transferring out of the school district under open enrollment to a specified percent of its enrollment. In the first year of the program, the statute permitted a resident school board to limit transfers out to 3% of its enrollment. This percent increases one percent each year until it reaches 10% in the 2005-06 school year, after which there is no limit on the percent of students who may transfer out.

The annual applicable percent limit is as follows:

1998-99	3%	2002-03	7%
1999-00	4%	2003-04	8%
2000-01	5%	2004-05	9%
2001-02	6%	2005-06	10%

- If the costs of the special education and related services required by the student’s individualized education program would impose an undue financial burden on the resident school district.
- For school districts that participate in the chapter 220 integration transfer program, if accepting the student would increase racial imbalance in the school district.

Once a student is accepted into a nonresident school district under open enrollment, the student may be required by the nonresident school board’s policy to reapply one time—and one time only—prior to the beginning of middle school, junior high school or high school.

Open enrolled children with disabilities may be required to return to the resident school district if:

- The student’s newly-created or revised individualized education program requires special education or related services that are not available in the nonresident school district;
- There is no space in the special education and/or related services required by the newly-created or revised individualized education program; or
- The cost of providing the special education and/or related services required by the newly-created or revised individualized education program imposes an undue financial burden on the resident school district.

B. Appeals

If an application was denied by either the nonresident or resident school district, the parent or student may appeal the denial to the Department of Public Instruction within 30 days of receiving the notice of denial. The Department is required to uphold the school board’s decision unless the Department finds that the decision was arbitrary or unreasonable.

C. Funding

Funding for regular education open enrollment is accomplished by transferring state aid from the resident to the nonresident school district. The amount of state aid transferred for each regular education open enrollment student is equal to the statewide average per pupil cost for regular instruction, co-curricular activities, instruction support services and pupil support services in the previous school year.

The history of the open enrollment transfer amount since the beginning of the program is as follows:

1998-99	\$4,543	2001-02	\$5,059
1999-00	\$4,703	2002-03	\$5,241
2000-01	\$4,828	2003-04	\$5,446

The money transferred under open enrollment is not considered in determining a school district’s revenue limit. That is, a resident school district may not raise its tax levy to replace the loss of state aid for students enrolling in other school districts. Conversely, a nonresident school district receiving a student is not required to reduce its revenue limit by the amount of the state aid increase.

No aid transfer is made for students with disabilities attending nonresident school districts under open enrollment. Instead, funding for special education open enrollment is accomplished by a direct payment from the resident school district to the nonresident school district. The payment may either be calculated according to the statutory tuition calculation¹¹ or may be an amount agreed to by the school boards of the nonresident and resident school districts.

D. Transportation

Transportation from one school district to another under open enrollment is the responsibility of the parents. The exception to this provision requires the nonresident school district to provide transportation if the individualized education program for a student with a disability requires that transportation be provided. (In this case, transportation is a related service, the cost of which may be billed to the resident school district as part of the tuition calculation.)

Parents of low-income students (that is, students who are eligible for free or reduced-price meals under the federal school lunch program) may apply to the Department of Public Instruction for reimbursement of the cost of transporting the child to and from school under open enrollment. The maximum amount of reimbursement per child is three times the state average transportation cost per student.

The maximum amount per student for each year of the program is as follows:

1998-99	\$986.22	2001-02	\$1,065.06
1999-00	\$986.22	2002-03	\$1,114.14
2000-01	\$987.39		

Either the nonresident or the resident school district *may* choose to provide some transportation to open enrollment students. However, the nonresident school district is prohibited from picking up or dropping off a student within the boundaries of the student’s resident school district. Only the nonresident school district may receive state categorical transportation aid¹² for transporting open enrollment students.

II. SUMMARY DATA ON APPLICATIONS; APPROVALS AND DENIALS; AND TRANSFERS

The following tables provide summary data on open enrollment applications and school district actions on the applications. Data by individual school districts are contained in the appendices. Some notes on the data:

- Unless otherwise noted, the total number of applications to transfer into a district includes duplicates, while the total number of applications out does not include duplicates. Some students applied to attend multiple school districts. For example, if a student lives in Milwaukee and applies to attend Menomonee Falls and Wauwatosa, there would be two applications to transfer in—once to Menomonee Falls and once to Wauwatosa. However, the student would only be counted once as an applicant to transfer out of Milwaukee.
- The number of transfers includes only those students who actually transferred from one school district to another. Since a student can attend only one school district at a time, the number of actual transfers does not include duplicates.

¹¹ See Wisconsin Statutes § 121.83

¹² See Wisconsin Statute § 121.58 (2).

A. Applications – Approvals, Denials and Reasons for Denial

1. *Number of Applications, Approvals and Denials, and Reasons for Denial by Nonresident School Districts*

	2000-01		2001-02		2002-03

Student Expelled	20	1.8%	36	1.9%	24	1.1%

* Total number of “Reasons for Denial” may not equal total number of denials, because students may have been denied for more than one reason or the district may have reported the denial, but not the reason for the denial. Thus, the percents of total denied may not add to 100%.

** Students may open enrollment for 4-year-old kindergarten, prekindergarten and early childhood education only if the resident districts offers the same type of program and only if the student is eligible for the program in the resident school district.

*** “Other” reasons for denial would include reasons such as late applications or ineligibility due to age.

	2000-01		2001-02		2002-03	
	Total Number	% of Total Apps	Total Number	% of Total Apps	Total Number	% of Total Apps

Other****	15	8.8%	14	3.8%	9	2.6%

* Resident school districts are not required to take action on open enrollment applications, nor are they required to provide notice of approval of open enrollment applications. Thus, for purposes of this report, all applications that are not reported as denied are included in the category of “approved, no action taken, or approval/denial not reported. However, it is possible that applications reported in this category may have actually been denied.

** Total number of “Reasons for Denial” may not equal total number of denials, because students may have been denied for more than one reason or the district may have reported the denial, but not the reason for the denial. Thus, the percents of total denied may not add to 100%.

*** Students may open enrollment for 4-year-old kindergarten (4K), prekindergarten (PK) and early childhood education (ECE) only if the resident district offers the same type of program and only if the student is eligible for the program in the resident school district.

**** “Other” reasons for denial would include reasons such as late applications or ineligibility due to age.

¹³ Individual racial/ethnic groups are collapsed into either “minority” or “nonminority” (white) categories. For statewide participation by specific racial/ethnic groups, see the tables on pages 8 and 9.

¹⁴ Applications Out refers to applications in which the resident school district is located within the indicated CESA. The application may have requested transfer to a nonresident district located in the same CESA or in a different CESA.

* Total number of "Reasons for Denial" may not equal total number of denials, because students may have been denied for more than one reason or the district may have reported the denial, but not the reason for the denial. Thus, the percents of total denied may not add to 100%.

** Students may open enrollment for 4-year-old kindergarten, prekindergarten and early childhood education only if the resident districts offers the same type of program and only if the student is eligible for the program in the resident school district.

*** "Other" reasons for denial would include reasons such as late applications or ineligibility due to age.

2. Number and Reasons for Denial of Students with Disabilities by Resident School Districts

▪ PreK, K4 or ECE***	1	0.1%	1	0.1%	8	4.9%
▪ Other****	3	3.0%	6	6.0%	2	1.2%

* Resident school districts are not required to take action on open enrollment applications, nor are they required to provide notice of approval of open enrollment applications. Thus, for purposes of this report, all applications that are not reported as denied are included in the category of "approved, no action taken, or approval/denial not reported. However, it is possible that applications reported in this category may have actually been denied.

** Total number of "Reasons for Denial" may not equal total number of denials, because students may have been denied for more than one reason or the district may have reported the denial, but not the reason for the denial. Thus, the percents of total denied may not add to 100%.

*** Students may open enrollment for 4-year-old kindergarten (4K), prekindergarten (PK) and early childhood education (ECE) only if the resident district offers the same type of program and only if the student is eligible for the program in the resident school district.

**** "Other" reasons for denial would include reasons such as late applications or ineligibility due to age.

III. APPEALS

A. The Appeals Process

If a student's application is denied by either the nonresident or resident school district, the student may appeal the denial to the Department of Public Instruction within 30 days of receiving the notice of denial. The Department is required to uphold the school board's decision unless the Department finds that the school board's decision was arbitrary or unreasonable.

Upon receipt of an appeal, the Department sends a letter to the school district that denied the application requesting the record of the decision. The record of the decision consists of the school board's policy for approval or denial of full-time open enrollment applications; any administrative procedures used to determine approval or denial; any school board minutes, tapes or transcripts; any committee minutes, tapes or transcripts; and any other information pertaining to the denial of the appellant's application. Both the appellant (parent and/or student) and the respondent (school district) are given the opportunity to submit arguments (briefs).

The Department's role in deciding appeals under the open enrollment program is to ensure that the required statutory procedures were followed, that the school board's policy is in accordance with the statutes, that the school board's decision was based upon one or more of the statutorily-defined grounds and the school board's policy to the extent that the policy is in accordance with the statutes, and that the school board's decision was neither arbitrary nor unreasonable.

* State average per pupil cost for regular instruction, co-curricular activities, instruction support services and pupil support services for the previous school year.

V. REIMBURSEMENT OF TRANSPORTATION COSTS FOR LOW-INCOME PARENTS

Low-income parents (that is, parents of students who are eligible for free or reduced-price meals under the federal school lunch program) may apply to the Department of Public Instruction for reimbursement of the cost of transporting the child to school for open enrollment. The statute provides that the maximum amount of reimbursement per child is three times the state average transportation cost per student.

The maximum amount per student for each year of the program is as follows:

School Year	Reimbursement per Mile	Maximum Reimbursement	School Year	Reimbursement per Mile	Maximum Reimbursement
1998-99	19¢	\$986.22	2001-02	19¢	\$1,065.06
1999-00	19¢	\$986.22	2002-03	22¢	\$1,114.14
2000-01	19¢	\$987.39			\$1,095.82 (prorated)

Parents who requested transportation reimbursement were required to submit a claim to the department that provided information about family size and income (to determine eligibility) and information about the cost of the transportation. Reimbursement was either a per mile amount (when transportation was provided by a family vehicle); or the actual cost of the transportation (when transportation was provided by other means, such as public transportation or contract with the school district).

The reimbursement was paid from a sum-certain appropriation at Wis. Stats. § 20.255 (2) (cy). Also paid from this appropriation was reimbursement for transportation of pupils granted “tuition waivers” under Wis. Stats. § 121.84 (4). The amount paid for tuition waiver transportation is included in the table below. The total amount of the appropriation was \$500,000 in the 2000-01 through 2002-03 school years. In the 2002-03 school year, the total claims exceeded the amount of the appropriation and payments were prorated.

Data on transportation reimbursement are as follows:

THE PART-TIME PUBLIC SCHOOL OPEN ENROLLMENT PROGRAM

I. DESCRIPTION OF THE PART-TIME OPEN ENROLLMENT PROGRAM

Beginning in the 1998-99 school year, a high school student who is enrolled in her or his resident school district may take up to two courses at a time in a nonresident school district.

A. Applications, Approvals and Denials

The student must apply no later than six weeks prior to the scheduled start of the course.

No later than one week before the start of the course, the nonresident district must notify the student if the application is accepted or rejected and the resident district must notify the student if the application is denied or if the course does not meet the high school graduation requirements in the resident school district. Prior to the start of the course, the parent must notify both school districts if the student will attend.

A nonresident school district may reject an application only for the following reasons, as specified in the school board policies:

- If space is not available in the course. If there are more applications than there are spaces, the school board must accept and reject applications on a random basis.
- Policies and criteria for entry into the course must be the same as those that apply to resident students, except that preference may be given to resident students.

A resident school district may reject a student's application to take a course in a nonresident district only for the following reasons, as specified in the school board policies:

- If the course conflicts with the individualized education program for a student with exceptional educational needs.
- If the cost of the course would impose an undue financial burden on the resident school district.

B. Appeals

If an application is rejected by either the resident or nonresident district, the parent may appeal the rejection to the state superintendent of public instruction within 30 days. The state superintendent must uphold the school board's decision unless that decision is found to be arbitrary or unreasonable. The decision of the state superintendent is final and is not subject to judicial review.

C. Funding

The resident school district must pay the cost of the course, calculated in a manner determined by the DPI, to the nonresident school district. Department of Public Instruction administrative rules¹⁵ require the resident school district to calculate its regular education tuition rate and multiply that by the FTE in which the student is enrolled in the course.

D. Transportation

Parents are responsible for transporting students to and from school in the nonresident school district.

¹⁵ See Wisconsin Adm. Code § PI 36.09.

Parents whose children are eligible for free or reduced-price meals under the federal school lunch program may apply to the DPI for reimbursement of transportation costs.

Either a nonresident or resident school district may provide transportation in any manner currently permitted in the statutes, but a nonresident school district may not pick up or drop off students within the boundaries of the student's resident district.

II. SUMMARY DATA ON SCHOOL DISTRICTS AND COURSES TAKEN

Information about participation in the part-time open enrollment program is reported by school districts on the School Performance Report. Individual information about school districts, the courses taken, and the number of resident and nonresident students taking courses may be viewed on the Department of Public Instruction internet web site at www2.dpi.state.wi.us/spr.

¹⁶ As reported by school districts on the school performance report. Since the Department does not make any aid payments or transfers for part-time open enrollment, the data are not audited. Thus, transfers in reported by nonresident districts and transfers out reported by resident districts may not agree.

¹⁷ Courses divided into curricular area for purposes of report. May not accurately reflect department/curricular area in which the individual school district offers the course.

²⁰ Denials as reported by school districts. Not all school districts reported approvals, denials and/or reasons for denial. Therefore, total applications minus denials does not necessarily equal approvals.

²¹ No applications were denied due to Racial Imbalance.

²² Includes denials due to Special Education & Related Services (SERS) Not Available, No Space for SERS, or Special Education Evaluation Not Completed.

²³ The resident district does not have the same type of prekindergarten, 4-year-old kindergarten or early childhood education program as the nonresident school district, or the child is not eligible for the program in her/his resident school district.

²⁴ Includes applications denied because they were invalid, late or deliberately falsified.

²⁵ Undue financial burden

²⁶ Denials as reported by school districts. Not all school districts reported approvals, denials and/or reasons for denial. Therefore, total applications minus denials does not necessarily equal approvals.

²⁷ No applications were denied due to Racial Imbalance.

²⁸ Includes denials due to Special Education & Related Services (SERS) Not Available, No Space for SERS, or Special Education Evaluation Not Completed.

²⁹ The resident district does not have the same type of prekindergarten, 4-year-old kindergarten or early childhood education program as the nonresident school district, or the child is not eligible for the program in her/his resident school district.

³⁰ Includes applications denied because they were invalid, late or deliberately falsified.

³¹ Undue financial burden

³² Denials as reported by school districts. Not all school districts reported approvals, denials and/or reasons for denial. Therefore, total applications minus denials does not necessarily equal approvals.

³³ Includes denials due to Special Education & Related Services (SERS) Not Available, No Space for SERS, or Special Education Evaluation Not Completed.

³⁴ The resident district does not have the same type of prekindergarten, 4-year-old kindergarten or early childhood education program as the nonresident school district, or the child is not eligible for the program in her/his resident school district.

³⁹ As reported by school districts on the school performance report. Since the Department does not make any aid payments or transfers for part-time open enrollment, the data are not audited or reconciled. Thus, transfers in reported by nonresident districts and transfers out reported by resident districts may not agree.
