# Introduction

This report is prepared pursuant to Wis. Stat. § 118.51(15)(c), as amended in 2011 Wisconsin Act 114, which requires the Department of Public Instruction to:

Annually submit a report to the governor and to the appropriate standing committees of the legislature under s. 13.172(3). The report under this paragraph shall include all of the following information:

- The number of pupils who applied to attend public school in a nonresident school district under the full-time open enrollment program.
- The number of applications received under the regular and alternative application procedures and, for the applications received under the alternative application procedure, the number of applications received under each of the criteria listed under the alternative application procedure.
- The number of applications denied and the bases for the denials.
- The number of pupils attending public school in a nonresident school district under the open enrollment program. The department shall specify, separately, the number of pupils attending public school in a nonresident school district whose applications were accepted under the regular application procedure and the alternative application procedure and, for the applications submitted under the alternative application procedures, the number of pupils attending under each of the criteria listed under the alternative application procedure.

The report covers school year 2016-17.

The report was prepared by Jennifer Danfield, School Administration Consultant, with assistance from Donna Wood, IS Systems Development Services Specialist; Kari Gensler Santistevan, School Administration Consultant; Michael Bormett, Assistant Director, School Management Services; and Tricia Collins, Director, School Management Services. Data for the report was gathered and compiled through the Open Enrollment Application Log (OPAL), an online application and tracking system first used for the 2008-09 school year.

The public school open enrollment website at <https://dpi.wi.gov/oe> provides general and specific information about the public school open enrollment program, including an informational brochure for parents, a link to the online parent application (during the application period), links to the open enrollment statute and administrative rules, links to statutory amendments to the program and to state and federal court decisions affecting open enrollment, informational bulletins for school district administrators, the open enrollment timetable, frequently-asked questions and other information.

Questions relating to the open enrollment program should be directed to the following Department of Public Instruction (DPI) staff by mail at DPI Public School Open Enrollment Program, PO Box 7841, Madison, WI, 53707; by phone at 888-245-2732 (toll-free) or by email at [openenrollment@dpi.wi.gov](mailto:openenrollment@dpi.wi.gov).

# Description of the Full-Time Open Enrollment Program

2

## Regular Application Procedure

The full-time open enrollment program is created in Wis. Stat. § 118.51. The administrative rules are in Wis. Admin. Code Ch. PI 36.

Under the full-time open enrollment program (open enrollment), pupils in grades kindergarten (including 4-year-old kindergarten) to 12 may apply to attend any public school district in the state. Parents may apply for a child to attend 4-year-old kindergarten, prekindergarten, early childhood education, and school-operated daycare only if the child's resident school district offers the same type of program and if the child is eligible for the program. A pupil is permitted to submit applications to no more than three nonresident school boards in any school year.

A parent may apply for open enrollment during an annual application period. For the 1998-99 to 2010-11 school years, applications were submitted during a three-week application period in February. In the 2011-12 school year, significant changes were made to the open enrollment application procedures, including an extension of the three week application period to three months (February through April) and the addition of an alternative application procedure that allows parents to apply for open enrollment any time during the school year, if certain criteria are met.

School boards may deny pupils' applications only for specific criteria set forth in the statute:

- The school board of a nonresident school district (the school district the pupil wishes to attend) may deny a pupil's application only for the following reasons (and only if specified in school board policy):
  - Space is not available in the school, program, class, or grade the pupil would attend. If there are more applications than there are spaces available, the nonresident school board must accept or reject applications on a random basis, except the school board must give preference to pupils who are already attending school in the nonresident school district and to their siblings. A nonresident school board may adopt a policy that

guarantees approval to currently-attending pupils and/or siblings of currently-attending pupils. A nonresident school board may create a waiting list of pupils whose applications were denied.

- Union high school district boards must give preference and may guarantee approval to 8th graders from the high school's elementary feeder schools.
- The pupil has been expelled during the current or two preceding school years (or a disciplinary proceeding is pending) for certain reasons.<sup>1</sup> In addition, a nonresident school board may refuse to enroll a pupil if the pupil is currently serving an expulsion that extends into the school year for which the pupil has applied for open enrollment.<sup>2</sup>
- The pupil has been referred for an initial special education evaluation that has not been completed.
- The special education and related services required by a pupil's individualized education program (IEP) are not available in the nonresident school district or there is no space in the special education program or related services required by the pupil's IEP.
- Beginning in the 2010-11 school year, a nonresident school board may deny open enrollment to a pupil who was habitually truant<sup>3</sup> from that nonresident school district during either semester in the current school year (that is, the school year during which the open enrollment application is submitted) or the previous school year.

Once a pupil is accepted into a nonresident school district under open enrollment, the pupil may be required by the nonresident school board's policy to reapply one time—and one time only—prior to the beginning of middle school, junior high school, or high school.

If an open enrolled pupil becomes habitually truant, a nonresident school board may require the pupil to return to the resident school district. A pupil in a virtual charter school is not subject to the compulsory school attendance law, but may be required to return to the resident school district if, three times in the same semester, the pupil fails to respond appropriately to an assignment or directive within five school days.<sup>4</sup>

Open enrolled children with disabilities may be required to return to the resident school district if:

- The nonresident school board determines that the pupil's newly-developed or revised IEP requires special education or related services that are not available in the nonresident school district.
- The nonresident school board determines that there is no space in the special education and/or related services required by the newly-developed or revised IEP.

### **Alternative Application Procedure**

2011 WI Act 114 created an alternative application procedure by which parents may apply for open enrollment at any time during a school year, if any of the following criteria are met:

- The pupil's resident school board has determined that the pupil has been the victim of a violent criminal offense. The application must be made within 30 days of the determination by the resident school board.
- The pupil is or has been homeless in the current or preceding school year.
- The pupil has been the victim of repeated bullying and harassment, the bullying or harassment has been reported to the pupil's resident school board and, despite any action taken, the bullying or harassment continues.
- The pupil's or parent's residence has changed as a result of military orders. The application must be made within 30 days after the date the military orders were issued.
- The pupil moved into the state. The application must be submitted within 30 days after moving into the state.
- The pupil's residence has changed as a result of a court order or custody agreement or because the pupil was placed in or removed from a foster home or the home of a person other than the pupil's parent. The application must be made within 30 days of the pupil's change of residence.

- The pupil's parent, the nonresident school board, and the resident school board agree that attending the nonresident school district is in the pupil's best interests.
- The pupil's parent and the nonresident school board agree (but the pupil's resident school board disagrees) that attending the nonresident school district is in the pupil's best interests. If the pupil's resident school board prevents the pupil from transferring, the parent may file an appeal with the DPI.

The nonresident school board may deny an application under the alternative procedure for the same reasons it may deny applications submitted under the regular application procedure. The nonresident school board may also deny an application if it determines that the transfer is not in the pupil's best interests or that the criteria upon which the application is based do not apply to the pupil. The resident school board may deny an application if it determines that the transfer is not in the pupil's best interests or that the criteria upon which the application is based do not apply to the pupil.

## **Appeals**

If an application submitted during the regular application period was denied by either the nonresident or resident school board, the parent or pupil may appeal the denial to the DPI within 30 days of the date the notice is mailed or personally delivered to the parent. The DPI is required to uphold the school board's decision unless the DPI finds that the decision was arbitrary or unreasonable.

If an application submitted under the alternative application procedure is denied by the resident school board, the parent or pupil may appeal the denial to the DPI within 30 days of the date the notice is mailed or personally delivered to the parent. The DPI is required to uphold the school board's decision unless the DPI finds that the decision was arbitrary or unreasonable, except if a resident school board denies an application based on the best interests of the pupil, the DPI must overturn the decision if the DPI determines the denial is not in the best interests of the pupil.

A nonresident school board's denial of an application submitted under the alternative application procedure may not be appealed to the DPI.

## **Funding**

Open enrollment is funded by an increase in the state aid payment for nonresident school districts and a decrease in the state aid payment for resident school districts (the final state aid payment is increased or decreased by the net of the transfers in and transfers out).<sup>5</sup> This is commonly referred to as an aid “transfer.” For the years 1998-99 to 2012-13, the basic amount of state aid transferred for each regular education open enrollment pupil was equal to the statewide average per pupil cost for regular instruction, co-curricular activities, instruction support services, and pupil support services in the previous school year.

In the 2012-13 school year, the per pupil transfer amount was decreased by \$544. This corresponds closely to the average (\$554) reduction in the allowable per pupil revenue limit for the 2011-12 school year that was imposed by 2011 WI Act 32.

For the 2013-14 and 2014-15 school years, the per pupil transfer amount was equal to the prior year’s transfer amount plus \$150.

For the 2015-16 and 2016-17 school years, for regular education open enrolled pupils, the per pupil transfer amount was equal to the maximum per pupil amount from the prior year, increased by the per pupil revenue limit adjustment, and the appropriated state categorical aids per member (if positive), for public school districts in the current year. For the 2016-17 school year, the per pupil transfer amount for regular education pupils was \$6,748.

Through the 2015-16 school year, for open enrolled pupils with disabilities, there was no increase or reduction of state aid payments. Instead, the resident school board paid the nonresident school board directly. The amount of the payment was equal to the open enrollment per pupil transfer amount plus only the actual, additional cost incurred by the nonresident school board to provide special education and related services to the pupil.<sup>6</sup>

Beginning in the 2016-17 school year, the open enrollment payment for pupils with disabilities was funded in the same manner as regular education open enrollment payments was funded, by an increase in the state aid payment for nonresident school districts and a decrease in the state aid payment for resident school districts. For the 2016-17 school year, the special education per pupil transfer amount was \$12,000.<sup>7</sup>

2006-07	\$5,845	\$118,740,934	2015-16	\$6,639	\$303,237,767
			2016-17	\$6,748/\$12,000	\$387,837,328

The money transferred under open enrollment is not considered in determining a school district's revenue limit. That is, a resident school board may not raise its tax levy to replace the loss of state aid for pupils enrolling in other school districts. Conversely, a nonresident school board receiving a pupil is not required to reduce its revenue limit by the amount of the state aid increase.

# Applications and Transfers

3

The following tables provide summary data on the number of applications received each school year and how many pupils transferred each school year. For the 2016-17 school year, the data are provided separately for applications submitted during the regular application period and those submitted under the alternative application procedure.

The data report the number of applications submitted, not the number of individual pupils submitting applications. An individual pupil may apply to up to three nonresident school districts in a school year, each application submitted by the pupil is counted as a separate application.

As required in Wis. Stat. § 118.51(15)(c)2. and 4., the number of alternative applications and transfers resulting from those applications for 2016-17 are also reported separately by the criteria upon which the alternative applications were based. The total of the number of applications and transfers listed by criteria may exceed the total number of applications and transfers because an application may have been based on multiple criteria.

“Apps,” whether regular apps or alt apps, refers to the total number of applications submitted for the given school year. “New transfers” is the number of transfer pupils resulting from those applications and is reported separately for regular apps and alt apps. “Continuing transfers” is the number of pupils who were open enrolled in the prior school year and who are continuing to attend the nonresident school district under open enrollment, regardless of when they originally applied or the type of application they originally submitted.

Note: the sum of the number of denials by reason may differ from the total number of denials. The sum may be greater than the total number of denials, because applications may be denied for more than one reason. The sum may be less than the total number of denials, because a school district may have reported the denial but not the reason(s) for the denial.
