

WISCONSIN PARENTAL CHOICE PROGRAM (WPCP/Statewide)

WPCP Facts and Figures for 2021-22 As of October 2021

In October 2021, there were 301 private schools participating in the WPCP, with a total enrollment of 14,452 students or 14,020.8 full-time equivalent (FTE) in the program.* The 2021-22 WPCP state aid payment for a student enrolled full-time in the WPCP in grade kindergarten through eight is \$8,336 and \$8,982 for a student enrolled full-time in grade nine through twelve. The program is estimated to cost \$119,100,000 in 2021-22.

Act 55 (Wisconsin 2015-17 Biennial Budget) changed the manner in which the WPCP is funded. Students that participated in the program prior to the 2015-16 school year will continue to be fully funded from state general purpose revenue. Pupils who begin attending a private school under the WPCP in the 2015-16 school year and thereafter are referred to as “incoming pupils.” All choice pupils participating in the WPCP must identify their resident public school district (the public school district where they reside on the 3rd Friday in September). State law requires Wisconsin public school districts to have their state general aid reduced by an amount equal to the amount paid by the state to participating private schools attributable to the incoming pupils residing in the district.

If a resident public school district does not receive general aid payments sufficient to cover the incoming choice pupil aid reduction, the balance would be reduced from other state aids received by the district. Incoming pupils in the WPCP are included in their resident public school district’s membership for state general aid purposes in the following year. Districts may not levy to backfill the aid reduction. However, they receive a non-recurring revenue limit exemption equal to their general state aid reduction. For the 2021-22 school year, no more than 6% of pupils residing in a public school district may participate in the WPCP. There were 16,038 students eligible to be included in the statutorily required random drawing conducted by the department in May for districts with more applications than the 6% limit or for schools with more applicants than seats available. There were 1,311 students selected in the drawing that are not participating in the program. As of the 3rd Friday in September (September 17, 2021), there were 99 students on private school waiting lists and 176 students on the WPCP waiting list due to the 6% public school district limit. The department is required to fill a seat from a district’s waiting list if a choice student leaves a school and the choice enrollment falls below the 6% limit.

Table 1 shows the WPCP enrollment by grade level. The number of students listed in the table is reported by headcount and FTE. For example, a four-year-old kindergarten student may be counted as 0.5 or 0.6 FTE.
