

## Private School Report Cards Choice School Option for 2023-24 School Year’s Data

Private schools participating in the Private School Choice Programs (Choice) have the option of receiving a Private School - All Students Report Card in addition to the Private School - Choice Students Report Card. The Private School - All Students Report Card includes both Choice and non-Choice students at the private school.

The Private School - All Students Report Card Form is due to the Department of Public Instruction (DPI) by the first weekday in August. Choice schools who are not making a change to their prior year report card option do not need to send a new form. After the first weekday in August, the next opportunity to change the school’s option for the Private School - All Students Report Card is between the end of the school year and the first weekday in August. Due to data collection processes, DPI cannot change the data collection for Choice and non-Choice students until the next school year.

The table below and on the following pages has the school’s Private School - All Students Report Card option for the 2023-24 school year’s data. This option applies to all locations included on the Notice of School's Intent to Participate.
