# What is the SNSP?

The Special Needs Scholarship Program (SNSP) allows a student with a disability, who meets certain eligibility requirements, to receive a state-funded scholarship to attend a participating private school.

4

4

## SNSP Law & Statute

- The SNSP is based on Wis. Stat. 115.7915 and Wis. Admin. Code PI 49.
  - This training is based on the above statutes and administrative rules.
- **Note:** If there are changes to statute or administrative rules, the department will provide guidance to the schools as soon as we are able.

5

5

## Payment Process, Statement of Actual Cost, & Summer School

6

6

## FTE Determination

- FTE means full-time equivalent and is used to calculate the payment amount per SNSP student.
- Students in grades 1 -12 are counted as 1.0 FTE.

7

## 5-Year Old Kindergarten FTE

- Five year-old kindergarten (K5) pupils are counted as:
  - 0.5 FTE if attending less than full-time but at least 437 hours a school year.
  - 0.6 FTE if attending 3 full days of instruction each week.
  - 0.8 FTE if attending 4 full days of instruction each week.
  - 1.0 FTE if they attend school five full-days a week.

8

## FTE Determination (cont)

- Four year-old kindergarten students are generally counted as 0.5 FTE.
- If the school provides an additional 87.5 hours of parental outreach activities for the parents of four year-old kindergarten students, the school may count the students as 0.6 FTE.
- See the K4 Parental Outreach Activities Bulletin on the Bulletin webpage and the training on the training webpage for more information.

9

## Payment Process

- The September payment is 25% of the annual FTE SNSP payment amount for each eligible pupil on the Preliminary Enrollment Report.
- The November payment is 50% of the annual FTE SNSP payment for each eligible pupil on the 3rd Friday in September Pupil Count Report and class list less the September payment for each pupil on the Preliminary Enrollment Report.
- The February & May payments are each 25% of the annual FTE SNSP payment amount for each eligible pupil on the 2nd Friday in January Count Report and class list.

10

# Overview of SNSP Program Funding

The schools receive a payment for eligible SNSP pupils.

At the end of the year, the total payments received for eligible SNSP pupils are compared to the school's actual net eligible education expenses for the SNSP.

The difference between the SNSP payments received and the school's actual net eligible education expenses is the SNSP Reserve balance.

The school must maintain a cash and investment balance that is at least as much as this amount for future SNSP eligible education expenses.

11

11

# SNSP 2022-23 Expected Payment Amounts per Full-Time Equivalent (FTE)

- The 2022-23 payment amounts are estimated to be:
  - \$13,076 per FTE for full scholarship students
  - \$8,399 per FTE for partial scholarship students in K-8
  - \$9,045 for partial scholarship students in 9-12

This information is available on our Payments webpage: <https://dpi.wi.gov/parental-education-options/special-needs-scholarship/payments>

12

12

# Actual Costs Incurred Pupil Payment Option

- A school has the option to receive a SNSP payment for a pupil based on the cost to provide special education for that SNSP pupil in the previous school year. The school may choose to use this option for none, some or all of its SNSP pupils.
- A school that would like a payment for a pupil in the 2022-23 school year using this option must provide a Statement of Actual Cost that indicates the actual special education costs incurred for the pupil for the 2021-22 school year while the pupil was participating in the SNSP. The school must provide supporting documentation for the costs. This statement is due by the 3<sup>rd</sup> Friday in July.

# Actual Costs Incurred Pupil Payment Option (cont)

- If the school submits a 2021-22 Statement of Actual Cost, the 2022-23 scholarship amount will be the amount on the statement of actual costs up to 150% of the regular student payment amount plus 90% of the amount on the 2021-22 Statement of Actual Cost over 150% of the regular student payment.

## Actual Costs Incurred Pupil Payment Option (cont)

	1 <sup>st</sup> Year	2 <sup>nd</sup> Year	3 <sup>rd</sup> Year
Voucher Amount	\$13,000	\$19,950	\$17,000
Amount on the Statement of Actual Cost up to 150% of voucher amount		\$19,500	\$17,000

Current Year Actual Costs Included on the Statement of Actual Cost	\$20,000	\$17,000	\$22,000

Assumes voucher amount of \$13,000 annually for example purposes only.

  - The cost was incurred to provide aids, services and other supports that are provided in regular education classes or other education-related settings to enable a child with a disability to be educated with nondisabled children to the maximum extent appropriate.

16

16

## Special Education Expenses in a SNSP Statement of Actual Cost (cont)

- The following are costs that may be included in the Statement of Actual Cost if they meet the eligible education expense requirements (cont).

  - The cost was incurred to provide services or activities for school personnel to meet the unique needs of a child with a disability.

17

17

## Expenses for Pupils in a Statement of Actual Cost

## Enrollment/Count Reports & Virtual Instruction

31

31

### Preliminary Enrollment Report

- Due by the last weekday in August.
- Schools provide a list of the SNSP pupils enrolled at the school as of the last weekday in August.
- If the school has pupils that are continuing SNSP pupils from the previous school year, the school must identify if the pupils were determined to no longer to have a disability in the prior school year.

32

32

## 3rd Friday in September and 2nd Friday in January Pupil Count Reports

- Provide the total number of all pupils and SNSP pupils at the school that meet the attendance requirements.
- The 3rd Friday in September Pupil Count Report is due the last weekday in September and the 2nd Friday in January Pupil Count Report is due the last weekday in January.
- 3<sup>rd</sup> Friday in September Pupil Count Report Only-Report current addresses for continuing SNSP pupils.

33

33

## 3rd Friday in September and 2nd Friday in January Pupil Count Reports (cont)

- A pupil should be included on these reports if one of the following apply:
  - Pupil was in attendance for instruction on the count date; or
  - Absent on the count date, but in attendance on at least one day before *and* one day after the count date *and* was not enrolled in another school or homeschooled during his or her absence.

34

34

## Determining Attendance For Virtual Instruction

- If a school is providing virtual instruction, in whole or in part, it should create a policy indicating how it is determining a pupil is in attendance for a day.
- Examples of how a school may determine a pupil is in attendance for a day of virtual instruction include a pupil logging into online instruction provided by a teacher or a pupil submitting one of the day's activities to the teacher. Please note that instruction must include more than dropping off homework. The teacher must be working with the child on the materials such as grading the materials and providing the graded materials to the student.
- The policy of how the school determined a pupil is in attendance for a day must be provided to the auditor as part of the Enrollment Audits.

35

35

## Dual Enrollment

- A pupil is not eligible for a SNSP scholarship if the pupil is also enrolled, in or out of Wisconsin, in another private school, a home-based private educational program, a charter school under s. 118.40 (2r) or (2x), Stats., or a public school district.
- As a result, if a school is providing virtual instruction to a pupil or if a pupil is not in attendance at the physical location of the school on the count date, the school should verify that the pupil was not also in attendance at a different school or homeschooled.

36

36

## Required Records

- Official Attendance Records: A listing of all pupils in attendance at the school on the count date or before and after by grade level.
  - If the school is also in the Choice programs, these records must be in the Student Information System (SIS).
  - These records must identify who is a SNSP pupil unless the records are in the SIS. If the records are in the SIS, a different report in the SIS may identify who is a SNSP pupil.
- Original Classroom Records: Classroom grade books or other records maintained by teachers identifying daily attendance or absences, grades or other indications of instruction such as progress reports. *These cannot be the same as the Official Attendance Records.*

37

37

## Blended/Virtual Instruction

- In order to determine the hours of instruction for schools using blended or virtual instruction, the school should develop a schedule that specifies the actual or estimated number of minutes required for each activity that makes up the class.
- Activities within the schedule may be real-time, asynchronous, or a combination of the two. For asynchronous activities, the teacher should use their knowledge and expertise to determine the estimated time for each activity.
  - Asynchronous activities are those in which a student is working independently under their teacher's direction using an online program, learning management system, or printed materials.

38

38

# Choice & SNSP Pupils

- Pupils can apply for the Choice program and SNSP, if eligible, but cannot be included on the count report for both programs.
- If a pupil applies for both programs, the school should obtain a letter from the parent/guardian indicating which program the pupil will participate in. The school should then notify the DPI which program the pupil will not be participating in if they choose not to participate in the SNSP or the Wisconsin Parental Choice Program.
- If the student is withdrawing from the SNSP, the SNSP administrator or designee must complete the Student Application or Transfer Request Notification Form available on the [Student Application & Transfer Request Processing webpage](#).
- See the Initial Student Eligibility Bulletin for additional information.

# All Pupil Count

- Include ALL pupils at your school in grades K4-12, even if a particular grade is not offered to SNSP students.
- If the school holds any grade, such as K4, for the public school district do not include:
  - The pupils in the all pupil count,
  - The costs for the pupils in the eligible education expenses (the costs will still be in total costs), or
  - The revenue as offsetting revenue.

## All Pupil Count (cont)

- If K4 or K5 are available grades for the Choice program or SNSP, they must be identified as educational programming.
- If the school has kindergarten age students enrolled in day care, they are not included in the all pupil count.
- If the school is providing educational programming, meets the required number of hours of instruction, and the pupils are age eligible, pupils in K4 and K5 should generally be included in the all pupil count.
- The all pupil count for the SNSP and the Choice programs must be the same.

41

## Review Question

Which of the following students should be included in the all pupil count?

a. Pupils participating in the SNSP	
b. Tuition paying pupils	
c. Pupils in day care	
d. Pupils on scholarship	
e. Pupils in second grade if the school does not provide second grade as an option for the SNSP	
f. Pupils that are attending K4 in the private school and enrolled in the public school district K4 program

# Criminal Background Checks

64

64

## Individuals Requiring a Background Check

- In order to determine which individuals require a background check, the school should begin by generating a list of all individuals who perform services for their legal entity.
- SNSP and Choice program schools must conduct a criminal background check for any individual at the school's legal entity who meets both of the following:
  - The individual is an employee of the legal entity under Wis. Stat. § 108.02 (12); and
  - The individual is directly or indirectly related to the school's educational programming.

65

65

## Who is an employee?

- The determination of who is an employee of the legal entity is based on Wis. Stat. § 108.02 (12).
- Individuals who perform services for a school may be considered employees regardless of whether the individuals are paid directly by the school.
- Since volunteers do not receive any compensation for the services they perform, they are not considered employees and background checks are not required.

66

66

## DWD Worker Classification Resource

- DWD has a worker classification resource available at <https://dwd.wisconsin.gov/worker-classification/ui/> that can be used to determine who is an employee.

67

## DWD Worker Classification Resource (cont)

- Part 1: Direction and Control - The worker must be free of the employer's direction and control to be considered an independent contractor.
  - If the worker is found to be under the direction and control of the employer, the worker is an employee.
  - If the worker is free from the direction and control of the employer, the second part of the test is applied to the worker.
- Part 2: Independent Business - Five Factors

## Who is directly or indirectly related to educational programming?

- Individuals are considered directly or indirectly related to educational programming if they met any one of the following:
  - The individual has any compensation included as an eligible education expense in the Choice or SNSP financial audit.
  - The individual interacts with students.
  - The individual's job relates to the financial, administrative, or academic sectors of the school.

70

70

# Criminal Background Check Requirements

SNSP and Choice program schools cannot employ:

- Any individual who is not eligible for a teaching license as the result of an offense; and
- Any individual who might reasonably be believed to pose a threat to the safety of others, which includes individuals who have engaged in immoral conduct.

71

# Teaching License Eligibility

An individual is ineligible for a teaching license if the individual has been convicted of any Class A, B, C, D, E, F, G, or H felony under Wis. Stat. chs. 940 or 948, except §§ 940.08 and 940.205, within six (6) years of the individual applying for a license to teach.

72

## Immoral Conduct

- Wisconsin law defines immoral conduct as “conduct or behavior that is contrary to commonly accepted moral or ethical standards and that endangers the health, safety, welfare or education of any pupil.”
- Immoral conduct includes, but is not limited to, the intentional use of an educational agency’s equipment to download, view, solicit, seek, display or distribute pornographic material.
- Schools should have a policy or other written document indicating what they consider to be immoral conduct.

73

73

## Background Check Options

- Schools have 2 options for completing the background check for employees who are directly or indirectly related to educational programming:
  - DPI Issued License Background Check Option
  - Non DPI Issued License Background Check Option

74

74

## Current DPI Issued License Background Check Option

- The background check requirement can be met by determining that an individual has a current, DPI issued license.
- To complete the background check using this option the school must complete all of the following for the individual:
  - Obtain and retain a copy of the DPI issued license.
  - Annually determine that the individual has a current DPI issued license in advance of the employee working for the school term. If the individual no longer has a license, the school must use an alternative source to determine that the employee meets the requirements and maintain the documentation showing the background check was completed.

75

75

## Non DPI Issued License Background Check Option

- The background check must be completed prior to employing any individual who meets the specified criteria and every five (5) years thereafter.
- If the school is new to the Choice program/SNSP and has not previously completed background checks on existing employees, the school must complete a background check on each employee before he or she works at the school for the school year.

76

76

## Background Check Resources

- There is a Background Check bulletin and a Background Check Training online with additional information.

77

77

## Knowledge Check

Which of the following employees are considered directly or indirectly related to educational programming (there may be multiple answers)?

- a) The church secretary. The church and school are the same legal entity and in the same building. The church secretary does not work on school related items or interact with students.
- b) The individual responsible for soliciting donations for the school. The individual works from home.
- c) The accountant for the school. The accountant has an office in an administrative building not on the school premise.

78

78

Which of the following individuals require a background check?

Individual/Company Description	Background Check Required?

# Financial Audit Overview

81

81

## Financial Accounting System

The school must:

- Use a double entry financial accounting system.
- Balance the financial accounting system and provide the auditor with a trial balance.
- If adjusting entries are required to be made to the general ledger based on the auditor's recommendation, management must approve the adjustments in writing.

82

82

# Financial Audit

- Prepared in accordance with Generally Accepted Accounting Principles (GAAP).
- The financial audit is audited by an independent auditor.
- The fiscal year for the financial audit must be the school year from July 1 to June 30.
- Schools that receive less than \$100,000 annually in all of the Choice programs plus the SNSP in all previous school years and the school year being audited, may submit a modified financial audit to the DPI.

83

83

# Modified Financial Audit – Required Statements

## Required Financial Statements:

- Statement of Financial Position-includes assets and liabilities

## Required Years:

- Current year audited only

84

84

## Standard Financial Audit – Required Statements

### Required Financial Statements:

- Statement of Financial Position-includes assets and liabilities
- Statement of Activities-includes revenue and expenses
- Statement of Cash Flows-shows how the cash was used during the year

### Required Years:

- All of the statements must include an audited current and prior year.
- The only exception is the first financial audit. The Statement of Activities and Statement of Cash Flows may only include current year audited financial statements.

85

85

## Financial Audit Required Level

- The financial audit may either:
  - Include the school only financial information
  - If a school is part of a larger organization, the financial audit may be prepared at the consolidated organizational level as permitted by Generally Accepted Accounting Principles or at the school only level.

86

86

## Accrual Basis of Accounting

The annually required financial audit must be prepared using the accrual basis of accounting which requires that:

- Revenues are included when they are earned.
- Expenses are included when they occur.
- Revenues and expenses are **not** necessarily included when the cash is received or paid.

87

87

## Program Reserve Balance Schedule

- The financial audit includes a reserve balance schedule to calculate the school's program reserve balance.
- The reserve balance schedule determines the school's:
  - Eligible education expenses
  - Offsetting revenue
  - Reserve: Remaining balance of SNSP revenues received that have not yet been used for educational programming for SNSP students

88

88

## Program Reserve Balance Schedule-Standard

- The reserve balance schedule for the standard financial audit calculates eligible education expenses as the expenses in the Statement of Activities less the ineligible expenses.

Line	A Line Description	B Non-Eligible Expenses & Offsetting Revenue	C Amount
1	Expenses on Statement of Activities		
2	Ineligible Depreciation Expense

## Program Reserve Balance Schedule-Modified

90

90

## Reserve Requirements

- The school must maintain the reserve balance, if positive, for future eligible education expenses.
- The school carries forward the reserve balance, whether positive or negative, to the next year.
- If the school ceases to participate or is barred from all Choice Programs or the SNSP, the school will be required to repay the reserve balance, if positive, to the DPI.

91

## Ending Reserve Balance

Negative Reserve Balance	Positive Reserve Balance
<ul style="list-style-type: none"><li>• The school has spent more for K-12 educational programming for program pupils than the amount received from the program.</li><li>• The school will need to have funding sources other than program funds to pay for the additional costs.</li></ul>	<ul style="list-style-type: none"><li>• The school has spent less on K-12 educational programming for program pupils than the amount received from the program.</li><li>• The school has not fully spent the money the department will provide for educational programming for program pupils.</li></ul>

92

## Required Cash & Investment Balance

- The school must have an audited year-end cash and investment balance as reported on the statement of financial position that is at least as much as the required cash and investment balance.
- The required cash and investment balance is calculated as the total of the Choice and SNSP reserve balances less the remaining depreciation on fixed assets or land purchases that have not yet been included as eligible.

93

93

## PSCP & SNSP Combined Financial Audit

- A school that participates in both the PSCP and SNSP submits one financial audit that covers both programs.
- The financial statements are the same.
- A reserve balance schedule needs to be included for PSCP and SNSP if the school is participating in both programs.

94

94

## Grandfathered WPCP System Schools

- The financial audit for grandfathered Wisconsin Parental Choice Program (WPCP) system schools that participate as one school for the WPCP but as separate schools for the SNSP must include a SNSP reserve balance schedule for each school.
- The financial audit must include a statement that shows the revenues and expenses for each school separately in addition to the consolidated Statement of Activities.

95

95

## Knowledge Check

Which of the following schools would be required to provide a standard 2021-22 financial audit rather than having the option to provide the modified financial audit?

- The school received \$110,000 from the Milwaukee Parental Choice Program (MPCP) in the 2019-20, \$95,000 in the 2020-21 school year, and \$95,000 in the 2021-22 school year.
- The school is a first time participant in the Choice program and SNSP in the 2021-22 school year. It receives \$30,000 from the MPCP, \$30,000 from the Wisconsin Parental Choice Program, \$30,000 from the Racine Parental Choice Program, and \$25,000 from the SNSP.
- Both a and b.
- Neither a or b.

True or False: The Department directly reimburses schools for expenses for Special Needs Scholarship Program pupils.

97

# Eligible Education Expenses

98

Eligible Education Expenses	
Choice	SNSP
Eligible education expenses are all direct and indirect costs associated with a school's educational programming for pupils enrolled in grades kindergarten to 12 that are reasonable for the private school to achieve its educational purposes as determined by the school's written policy and tested by an independent auditor.	Eligible education expenses are all direct and indirect costs associated with a private school's educational programming for pupils enrolled in grades kindergarten to 12.

SNSP Eligible Education Expenses
<ul style="list-style-type: none"><li>• General Eligible Education Expenses: These are the school's educational programming expenses for <i>all pupils</i> enrolled in grades K4 to 12.</li><li>• Primarily SNSP Expenses: These are the school's educational programming expenses that are <i>primarily related to SNSP students</i>.</li><li>• Expenses for Pupils in a Statement of Actual Cost: These are expenses that are identified as eligible, with supporting documentation, in a Statement of Actual Cost submitted by the school.</li><li>• See the SNSP Eligible Education Expense Bulletin for further information.</li></ul>

## **SNSP Eligible Education Expenses-General Eligible Education Expenses**

- The general eligible education expenses are multiplied by the percent of the students participating in the SNSP to determine what is a SNSP eligible education expense.
- The percent of pupils participating in the SNSP is based on the average of the 3<sup>rd</sup> Friday in September and 2<sup>nd</sup> Friday in January FTE for SNSP pupils and all pupils. If the school receives a payment based on a Statement of Actual Cost, the pupil is excluded from the SNSP pupil FTE in the year the scholarship is received.

101

101

## **Primarily SNSP Eligible Education Expenses**

- If the school is participating in the SNSP, it may designate eligible education expenses that are primarily for the SNSP.
- Expenses that are primarily, but not only, related to SNSP students are expenses that were incurred primarily for SNSP students where other pupils at the school are also getting a benefit.
- Since they need to be “primarily” related to the SNSP, the expenses must be used for the SNSP at least 50% of the time.

102

102

## Primarily SNSP Eligible Education Expenses (cont)

- The allocation for these expenses must be specific to the particular expense rather than a general allocation.
- Generally, the cost of teachers and other general costs of the school should be included as a general eligible education expense rather than as a primarily SNSP eligible education expense.

103

103

## Primarily SNSP Eligible Education Expenses (cont)

- These costs are excluded from the general eligible education expense calculation for the SNSP and Choice Program.
  - The SNSP excluded amount must be the amount before the allocation percentage is applied.
  - The Choice program excluded amount is the amount included as a primarily SNSP expense.
- Any government assistance, insurance proceeds, or fundraising revenue that are related to these costs must decrease the primarily SNSP eligible education expenses.

104

104

## Expenses for Pupils in a Statement of Actual Cost

- If a school submits a Statement of Actual Cost for a pupil, the school will include the eligible education expenses for the pupil from the actual cost report in the Reserve Balance Schedule.
- The allocation for these expenses must be specific to the particular expense rather than a general allocation.
- These costs are excluded from the general eligible education expense calculation for the SNSP and Choice Program.

105

105

## Eligible Education Expenses

- The amount included as an eligible education expense in the reserve balance schedule, for costs identified as eligible, is the amount that is included in the Statement of Activities for that school year based on generally accepted accounting principles (GAAP), except for the following:
  - The amount that the school paid for land is included in the first year the land is used for educational programming using an allocation method, if applicable.
  - Modified Financial Audit Only: Post retirement benefits may be included based on the actual cost of the benefits in that year.
- In order to include something as an eligible education expense, it must relate to a cash disbursement (either now or projected for the future).

106

106

## Non Eligible Education Expenses

Contributed services-the expense for donated services (such as accounting or legal services)

Contributed capital assets or goods

Scholarship awards and financial support for pupils

107

107

## Non Eligible Education Expenses (cont)

Bad debt expense

Daycare expenses except for before and after school care for K-12th grade pupils enrolled in educational programming at the school

Expenses for pupils enrolled in the public school

108

108

# Offsetting Revenues

Insurance Proceeds

Government Assistance:

- Any government assistance for expenses that are included in eligible education expenses are offsetting except for Paycheck Protection Program forgiven loans. See the COVID Funding Bulletin for information on how to include other COVID funding.
- Determine the USDA food program revenue using the Aids Register.

Offsetting fundraising revenue is the lesser of the following:

- Fundraising revenue
- Non-administrative fundraising expenses included in eligible education expenses
  - Administrative expenses include expenses for personnel, mailings, copying, and fixed assets used for other school purposes.

109

# Offsetting Revenue (cont)

- The amount that is offsetting for fundraising revenue is the lesser of:
  - Fundraising revenue
  - The amount of non-administrative fundraising expenses included in eligible education expenses
    - Administrative expenses include expenses for school personnel, mailings, copying, and fixed assets used for other school purposes

	Example 1	Example 2
Fundraising Revenue	\$15,000	\$25,000
Non Administrative Fundraising Expenses	25,000	10,000
Administrative Fundraising Expenses	40,000	30,000
Offsetting Fundraising Revenue	15,000	10,000

110

## Cost & Revenue Allocation Examples

- If a cost or revenue is partially related to educational programming and partially not related to educational programming, the cost or revenue must be allocated using an allocation method.
- Examples of when an allocation may be required:
  - Day care & school operations
  - Parish & school operations
  - Central administration for two or more schools
  - Transportation provided to the school’s pupils and other schools’ pupils
- Do not allocate for Choice/SNSP versus Non-Choice/SNSP pupil costs except as previously discussed for primarily SNSP expenses and costs in the statement of actual costs.

111

## Potential Allocation Methods

Pupil full-time equivalency or headcount	Employee full-time equivalency or headcount	Time spent
Number of transactions for allocating items such as accounting costs.	Square footage or square footage used over time for items such as rent.	Miles driven or driver hours for items such as transportation costs.

112

# Headcount Allocation Example

- The percent of children is as follows:
  - The school has a headcount of 215 and operates for 10 months.
  - The daycare has 30 children and operates for 12 months.

	Number of Children	Months	Total
Daycare	30	12	360
School	215	10	2,150
	Total		2,510

School related percentage: 86%

113

# Leased Facility Allocation Percentage

The school has a lease that requires rental payments of \$60,000 a year. The location is used for the school and daycare. The school occupies 10,000 square feet for 10 months of the year and the daycare occupies 5,000 square feet for 12 months of the year. The school’s policy indicates square footage used over time will be used for allocating rent. What is the eligible education expense for the lease?

	Square Feet	Months	Total
Daycare	5,000	12	60,000
School	10,000	10	100,000
	Total		160,000

School related percentage: 63% x \$60,000 =  
\$37,800 Eligible Education Expense

114

## True or False

- If a school has a cost that only relates to an SNSP student, they must include it as a primarily SNSP expense.

115

115

## Knowledge Check

What government assistance is included as offsetting revenue (a decrease to the eligible education expenses)?

- a. All government assistance received.
- b. Government assistance received for educational programming.
- c. Government assistance received for educational programming up to the related eligible education expense.

116

116

## Knowledge Check

A school participating in the SNSP and Choice program hires a teacher aid to work with an SNSP pupil. The teacher aid is paid \$30,000 per year. The teacher aid sometimes assists other students. The teacher aid spends 90% of her time with the SNSP student. The school designates the teacher aid as a primarily SNSP expense. What are the following amounts?

Type	Amount
Primarily SNSP Eligible Education Expenses	
Cost Excluded from SNSP General Eligible Education Expenses	
Cost Excluded from Choice General Eligible Education Expenses	

117

117

## Knowledge Check

A school has a teacher aide that they designate as primarily SNSP. The teacher aide does not spend all of her time on the SNSP. How must the school determine the portion of the SNSP teacher aide's time spent on the SNSP?

- a. The school can use the percentage of the school participating in the SNSP.
- b. The teacher aide must specifically track the amount of time spent working with SNSP pupils and SNSP required items compared to the amount of time spent on non-SNSP items every day.
- c. The teacher aide can estimate the amount of time spent on SNSP items.
- d. The teacher aide must specifically track the amount of time spent working with SNSP pupils and SNSP required items compared to the amount of time spent on non-SNSP. The teacher aide could select certain weeks to track her time that are representative of her typical time spent on the SNSP compared to non-SNSP items.

# Fixed Assets

120

120

# What is a Fixed Asset?

Assets purchased for long term use or over a certain dollar amount.

Capitalized assets-The purchase is included as an expense over the period the asset is expected to be used.

121

121

# Fixed Assets General Requirements

- The school should have a written capitalization policy that specifies:
  - The asset categories that will be used and a description of each category.
  - The useful life that will be applied to assets within each category.
  - The monetary threshold that will be used to determine if an asset is capitalized.
  - Information on what asset groups, if any, will be used for capitalization purposes.
- See Appendix 1 in the SNSP Eligible Education Expenses Bulletin for a sample capitalization policy.

122

122

## Fixed Assets Example

- Example fixed assets capitalization category: Equipment purchases that are \$1,000 or more. The useful life is 5 years.
- Which of the following assets are capitalizable?

Asset	Purchase Price	Capitalizable?
a. Teacher desk	\$800	
b. Smartboard	\$1,500	

123

123

## Land

- Land is included as an eligible education expense in the first year it is used for educational programming purposes, to the extent it is used for educational programming in that year.
- New schools to the Choice Programs/SNSP must include the cost of land as an eligible education expense in the school's first financial audit, if the land is already being used for educational programming in that year.
  - If the school joins the SNSP, it must include the land as an SNSP eligible expense in the first year it is being used for educational programming for the SNSP.
- Land not yet being used for educational programming purposes will not be included as an eligible education expense until the year it is used for educational purposes.

124

124

## Fixed Assets General Requirements

Only the cost for fixed assets may be included. If an asset is donated, for example, it is not an eligible cost.

The school must be able to provide the auditor with support for the fixed asset cost.

125

125

## Depreciation

- Depreciation for fixed assets begins when the asset is placed in service.
- The depreciation is included as an eligible education expense based on the percentage of the asset used for educational programming and related services.
- Accumulated depreciation is the total depreciation for the asset that has been expensed as of a point in time.

126

126

## Depreciation Example

- The school purchases a piece of equipment during the year for \$10,000.
- The useful life of the equipment category is 5 years.
- The equipment is used for educational programming by the school 50% of the time and 50% of the time it is used for church activities.

Total Equipment Cost	
Useful Life	
Depreciation Expense Per Year	
Eligible Education Expense per Year	

127

## First Year Financial Audit

- In the first year a school completes a GAAP financial audit for the Choice program or SNSP, the school must decide what, if any, existing fixed assets owned as of the beginning of the fiscal year (“existing fixed assets”) will be included in the financial audit.
- The school may choose to include all, some, or no existing fixed assets owned in the financial audit as long as the ones that are included meet generally accepted accounting principles (GAAP) including:
  - The original purchase must have met the school’s capitalization policy.
  - The school will need to determine and support the beginning fiscal year book value.
- Any assets purchased after the school starts participating in the program must be included in the financial audit.

128

# Knowledge Check

A school participated in the Choice program in the 2020-21 and 2021-22 school year. The school included land as an eligible education expense for the Choice program in the 2020-21 school year. The school joins the SNSP in the 2021-22 school year. Which of the following is true:

- a. The school cannot include the land as an eligible education expense for the SNSP in the 2021-22 school year because it already included it for the Choice program.
- b. The school must include the land that is being used for educational programming in the 2021-22 SNSP Reserve Balance Schedule as an eligible expense because it is the first year the school participated in the SNSP.

129

129

# True or False

Question	True or False

# Knowledge Check #5

A school has a reserve balance of \$20,000. It decides to replace its roof at a cost of \$20,000. 25% of the K-12 FTE at the school participates in the SNSP. Based on the school's capitalization policy, building improvements have a useful life of 10 years. Which of the following is true?

- a) The school can include the full \$20,000 as an eligible education expense for SNSP pupils because the school is reducing the reserve balance.
- b) The school can only include \$5,000 as an eligible education expense for SNSP pupils because the \$20,000 must be multiplied by the percent of the school participating in the program. The amount will be included as eligible each year as the cost to replace the roof is depreciated.
