RE: 2020-2021 Misreported Student Data

During the review of the December 2024 snapshot report, we noted the occurrence of some errors. As part of our commitment to transparency and accuracy, we believe it is essential to promptly address these discovered discrepancies.

After conducting a comprehensive review, we noted that 2 students were incorrectly reported as Not Completed - Not known to be continuing towards completion for their high school completion for the 4 year cohort in the December snapshot. Upon further investigation with our SIS team, it appears that these 2 students were not accurately reflected due to an error in the withdrawal records that our high school registrar completed. Instead of changing the correct withdrawal records for these students to identify them as Transferring Out of State, she entered them as Transferring to another WI school covered by WISE. This, in turn, makes the students appear like they did not ever return to school, but they did indeed go to a school outside the state of WI.

December Snapshot reported 4 students Actual Count 2 students

Please accept this letter as official notification of the data error.
