RE: 2023-24 Misreported Student Data

During our review of the December 2024 snapshot report, we discovered a discrepancy in data. We are committed to transparency and accuracy and believe it is important to address these discrepancies promptly.

Our comprehensive review revealed that the variance between the 23-24 and the 24-25 school years is due to the consolidation of three schools—Webster Stanley Elementary, Washington Elementary, and Merrill Elementary—into the newly named Menominee Elementary. This consolidation resulted in an enrollment increase from 204 to 573 students.

Further investigation with our student information systems (SIS) team suggests that the significant jump from an average rate of 10.78429% to 20.68966% is also attributable to this school consolidation.

December Snapshot reported is 20.68966%.
Past average reported is 10.78429%.

Please accept this letter as official notification of the data error.

Respectfully Submitted,

A handwritten signature in black ink, appearing to read "Julie Conrad-Peters". The signature is stylized with a large loop at the beginning and a cursive style for the rest of the name.

Julie Conrad-Peters
Assistant Superintendent of Operations
