Cornell Elementary – A National Blue Ribbon School

September 24, 2024

I'm taking the time to do this **AGAIN** in 2024 like I had to in 2022 as the DPI **AGAIN** did not correctly download our 2023 TFS economically disadvantaged numbers for ARG purposes with their December 2023 snapshot. We had the correct numbers in Infinite Campus. We had this same issue two years ago and I discussed this with [REDACTED] at DPI at the time.

The DPI has our 2023 TFS economically disadvantaged in grades K-3 at 65 of 103 students.
Our actual 2023 TFS economically disadvantaged in grades K-3 was 69 of 103.

The number of economically disadvantaged students frequently changes throughout the school year. The DPI was first trying to tell me that the December snapshot captures the TFS data, which I argued was incorrect. It was eventually reported to me that I was correct.

I received the following from [REDACTED] at DPI on November 16, 2022 at 8:00 a.m. *"I was corrected by the WISEdash team - the snapshot captures the most recent food service record submitted in WISEdata, not necessarily the record over the TFS date. So whatever food service data is submitted and current in WISEdata when the Snapshot happens on Dec 6th, it what will be captured and reported."*

I don't know why the DPI had to change the reporting method for AGR purposes, but they made it more difficult than easier. Hopefully they get it corrected for next year, **which has not happened for three years.**

Very irritated and frustrated **AGAIN having to waste my time because the DPI can not get their systems accurate!**

A handwritten signature in blue ink, appearing to read "Paul M. Schley", written over a horizontal line.
