**2023-2024 Misreported CTE Data**

During our review of the December 2024 CTE Snapshot Data, we noted our high school was recorded with zero CTE Participants. After contacting Skyward, PR 6046043 was created to fix the bug that deleted past records in the CTE area causing this discrepancy. Our participant count was shown as 0 and should be corrected to 891 students. We have uploaded the data correctly to WISE and have locked our 23-24 data.

This letter serves as official notification of the data correction. We have taken steps to rectify the error in our SIS to prevent future occurrences.

December Snapshot CTE Participants reported 0

Correct CTE Participant Count 891

Sincerely,

Tom Johnson  
District Administrator
