RE: 2023-2024 Misreported Student Data

During the review of the 2023-2024 School Report Card, we noted the occurrence of some errors that came to our attention. As part of our commitment to transparency and accuracy, we believe it is essential to promptly address any discrepancies discovered.

After conducting a comprehensive review, we noted that 43 students were mislabeled as Hispanic in our score report that should have been labeled as White. This error is a misrepresentation of our student population which may have indirectly had an impact on our overall score as a school district.

2023-2024 School Report Card reported 47 students as Hispanic/Latino  
Actual number of students identified as Hispanic/Latino= 4 students  
2023-2024 School Report Card reported 176 students as White  
Actual numbers of students identified as White= 222 students

Please accept this letter as official notification of the data error.

Sincerely,  
  
Taylor Reynolds  
Principal  
Lancaster Middle School
