Re: 2023-2024 Misreported Student Data

During the review of the December 2024 Snapshot report, we noted some errors that came to our attention. As part of our commitment to transparency and accuracy, we believe it is essential to address any discrepancies discovered promptly.

After conducting a comprehensive review, we have discovered that 735 of our students were missing their "Exit Withdraw" date and 17 students were missing their "Exit type".

As of the date of this letter, 100% of the missing information has been added to our school information system. As a private choice school, we do not have access to the current December 2024 snapshot data and are unsure of where the disparity lies. Going forward, we aim to ensure that there are 0 errors as we approach the May 2025 snapshot.

Yours truly,

John Mattek, MBA, MDiv
