RE: Data Errata

Department of Public Instruction
PO Box 53707
Madison, WI 53707

To Whom It May Concern,

This letter is to correct the West Allis-West Milwaukee School Districts TFS inclusion error that occurred with an overlapping enrollment in the 23-24 school year.

I have been in contact with Victory Christian Academy regarding this student. VCA was in contact with the parent and was told that their student was not dual enrolled when attending VCA. However, our attendance records report otherwise regarding this same student.

Both myself and VCA have been in contact with the DPI help desk and auditors for additional guidance regarding this student. Per DPI, due to the system's effective data logic TFS inclusion went to VCA and not West Allis-West Milwaukee. I was directed to submit a data errata letter to correct this.

Thank you for your help with resolving this issue,

A handwritten signature in black ink that reads "Karen Johnson". The signature is written in a cursive, flowing style.

Madison, WI 53707

To Whom It May Concern,

This letter is to correct the West Allis-West Milwaukee School Districts TFS inclusion error that occurred with an overlapping enrollment in the 23-24 school year for four of our students.

I have been in contact with Saint Roman Parish School regarding these students and have communication with them regarding them resolving the overlap error. Unfortunately it did not take place before the snapshot.

I have been in contact with the DPI help desk regarding these overlaps. Per DPI, due to the system's effective data logic TFS inclusion went to Saint Roman Parish School and not West Allis-West Milwaukee. I was directed to submit a data errata letter to correct this.

Thank you for your help with resolving this issue,
