**Sub-Category:** Student Count

**RE: 2023-2024 Misreported Student Data**

During the review of our State Report Card Data, we identified discrepancies related to the count of students classified as Economically Disadvantaged. Specifically, we discovered that many additional students were not correctly identified in our SIS as Economically Disadvantaged, bringing the total to 4,487 students. This error affected the accuracy of the reported data.

Upon further investigation, it was determined that these students were excluded due to a data configuration issue. We have since rectified this in our Skyward system to ensure accuracy moving forward.

We kindly request that the corrected data be updated in the WISEdash system to accurately reflect the current total.

**Previously Reported Count:** 3,761 students  
**Actual Count:** 4,487 students

Please accept this letter as the official notification of this data error and request for adjustment.
