Category: Graduation Data  
Re: 2024 Misreported Special Education Exiters/Graduates

During the review of the 2024 December snapshot report, we had errors in our high school special education graduation data report. Two of the graduating students had the wrong exiter code and graduation date. The errors reported the students transferred to regular education, which they did not exit out of special education. The graduation date was entered for the last day of the school year but should have reported as the actual day of graduation.

The corrections were updated in our system. We had 3 special education students graduate with a HS diploma, one with the HSED certification and one student transferred to regular education.

Please accept this letter as official notification of the data error for the 2023-2024 school year.

Best Regards,

Linda Parker  
Executive Administrative Assistant
