During the review of the December 2024 snapshot report, we noted the occurrence of some errors. As part of our commitment to transparency and accuracy, we believe it is essential to promptly address these discovered discrepancies. After conducting a comprehensive review, we noted that 18 completed an Advanced Placement course. These students were unaccounted for in the December snapshot. Upon further investigation with our SIS team, it appears that these classes were not accurately coded in our SIS. We are currently Working with Infinite Campus customer support to locate these errors in processing and resolve them.
