Re: 2024-2025 Misreported Student Data

During the review of the December 2024 Snapshot report, we noted some errors that came to our attention. As part of our commitment to transparency and accuracy, we believe it is essential to address any discrepancies discovered promptly.

After conducting a comprehensive review, we discovered at least two LEA's currently display an enrollment record for the same student. This affects 161 students. We are currently working with our team and other schools to resolve this issue. We had an additional 48 students who were identified as an "Invalid Choice Participant". Going forward, we aim to ensure that there will be no duplicate enrollments and that students will be correctly identified as Choice students as we approach the May 2025 snapshot.

Yours truly,

John Mattek, MBA, MDiv  
Co-founder and CEO of Shining Star Christian Schools
