RE: 2024-2025 Misreported Student Data

During the review of the December 10, 2024, snapshot report, we noted the occurrence of some errors. As part of our commitment to transparency and accuracy, we believe it is essential to promptly address these discovered discrepancies.

We noted that an error was made in our SIS Fast Direct system where the total number of Choice students on the September 10<sup>th</sup> count date was not sent from our SIS system. That correction has been made.

After conducting a comprehensive review, we also noted that 27 students did not have Race, Economic Disadvantage and English Level Proficiency marked. That error has been corrected in our SIS system, Fast Direct.

Please accept this letter as official notification of the data error.

Yours truly,

Daniel Busch, Principal & Administrator
