

May 20, 2025

Dear WISEData Team,

I am writing this Data Errata letter to inform you that we are currently unable to submit our May Snapshot of CHOICE counts due to an issue with our Student Information System (SIS) vendor, Veracross, not being listed on the WIDPI vendor list. As a result, we are unable to successfully push our data to the state for the reporting period.

Our database manager, Grace Mann is actively working with both Veracross and WISEData to create a manageable solution that will allow SJNA to submit the necessary data in compliance with state requirements. We are committed to resolving this matter as quickly as possible and will keep you updated on our progress.

Please let us know if there are any additional steps or information we need to provide during this process. Thank you for your understanding and assistance as we work to resolve this issue.

Sincerely,

Patti Zager
CHOICE Administrator

Dear WISEData Team,

I am writing to inform you that we are currently unable to submit our September Snapshot of CHOICE counts due to an issue with our Student Information System (SIS) vendor, Veracross, not being listed on the WIDPI vendor list. As a result, we are unable to successfully push our data to the state for the reporting period.

On September 23rd, 2024, we had a total of 8 CHOICE students. Our 2023-2024 graduating class did not include any CHOICE students.

Our database manager is actively working with both Veracross and WISEData to create a manageable solution that will allow SJNA to submit the necessary data in compliance with state requirements. We are committed to resolving this matter as quickly as possible and will keep you updated on our progress.

Please let us know if there are any additional steps or information we need to provide during this process. Thank you for your understanding and assistance as we work to resolve this issue.

Sincerely,

Patti Zager
CHOICE Administrator
