Category: Economically Disadvantaged Students

RE: 2024 December Snapshot – Correction to previous Data Errata letter written on February 6, 2025
Misreported Student Data

While examining the spreadsheet provided by the Wisconsin Department Public Instruction for free and reduced students being reported to USAC it was noticed that our school district numbers were "0" for these categories. The December snapshot did not capture the number correctly due to an error. That error was addressed in a Data Errata letter written on February 6, 2025. The number of students listed as economically disadvantaged was "49". This number in the letter is incorrect because there were 10 students who were not classified as economically disadvantaged until after the December snapshot. Therefore, the correct number should be "39" economically disadvantaged students.

As a part of our commitment to transparency we believe it is necessary to promptly address this discrepancy. The error was discovered on Oct. 30 and corrected on November 3rd. The correct number was provided to the Wisconsin Department of Public Instruction so that changes could be made to the E-Rate data supplied to the USAC.

December snapshot report: 0 economically disadvantaged students. Stockbridge School District correction in the Data Errata letter report dated February 6, 2025: 49 economically disadvantaged students. Stockbridge School District correction and actual count: 39 economically disadvantaged students.

Sincerely,

Todd Fischer
District Technology Coordinator
