Re: 2024-25 Misreported Primary Disability TFS Primary Disability Student Count

During the review of WISEdash data TFS Disability student count Snapshot Data, we noted that we reported 231 ID TFS Disability student count and 0 LD TFS Disability student count. We believe it is essential to promptly address this discrepancy.

After investigation we noted that our Ed-Fi Configuration Resource Preferences Student Special Education Program Associations Disability Descriptors Disability and Ed-Fi code were improperly mapped. LD: Specific Learning Disability was incorrectly mapped to ID: Intellectual Disability therefore reporting 0 LD: Specific Learning Disability students and over reporting our ID: Intellectual Disability students as 231.

Once the Ed-Fi Configuration Resource Preferences Student Special Education Program Associations Disability Descriptors Disability and Ed-Fi code was mapped correctly and a data resync on the affected students was performed, the WISEdata now reflects an accurate count of LD: Specific Learning Disabled and ID: Intellectually Disabled students.

Incorrect Snapshot Data

ID 231

Actual Correct TFS Disability Data

ID 45
LD 186

Please accept this letter as official notification of the data error.
