RE: [2025-2026] Misreported Student Counts

This letter is to correct the School District of Bonduel's October 1 Child Count data.

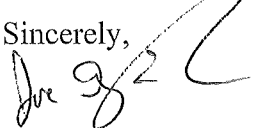

During the review of the December 2025 WISEdash December Student snapshot report, we noted the occurrence of some errors. As part of our commitment to transparency and accuracy, we believe it is essential to promptly address these discovered discrepancies.

DPI's WISEdash snapshot recorded a count of 131 students, ages 3 to 21, on the October 1 Child Count for the 2025-2026 school year. The correct 2025-2026 October 1 Child Count number, ages 3 to 21, should be 153.

*Of those 153 students, 2 were students ages 3, 4 and 5 on October 1.

We believe the error occurred due to switching to a new SIS, Skyward Qmlative, and it not sending information correctly to wise. We put out help tickets with SEEDS (IEP program) on 11/14, 11/24, and 12/4 sharing with them that students were not being counted. We put a help ticket out with Skyward Qmlative, our student information system, on 12/3 to explain that we were missing students, and contacted DPI on 12/7 and talked with Cecile David via phone explaining our students that were missing. There was an issue fixed on Skwyard Qmlative after the snapshot date that is now counting students correctly into wise, as we now have 153 of our 153 students accounted for.

Please accept this letter as official notification of the data error.

Sincerely,

Joe Dawidziak
District Administrator
