RE: 2022-2023 Incorrect Withdrawal Code for Student
2024-2025 Graduation

During the review of the December 2025 snapshot report, we noted the occurrence of an error. After conducting a review, we noted that a student is not listed as transferring to another school when our district has evidence of a transfer. Our records indicate that the student transferred to a school that does not report to WISEdata; however, that we received an error indicating that DPI had evidence of a transfer to a school that does report to WISEdata and that the withdrawal code needed to reflect this.

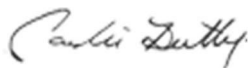

Further investigation was conducted by the WISE team, and their records do not provide evidence of a transfer to a school that does report to WISEdata. Additionally, the team reported that it is unclear from their records why additional errors were not subsequently created for the student when there was no longer evidence of said transfer, allowing for a timely reversion to the withdrawal code indicating a transfer to a school that does not report to WISEdata for which our district has evidence of. As such, the WISE team recommended submitting a data errata to indicate this issue and seek a correction for the student, transferring out of our school district.

December Snapshot reported 1/217 Not Completed – Not Known to be Continuing Toward Completion - Graduation Cohort 2025

Actual 0/216 Not Known to be Continuing Toward Completion - Graduation Cohort 2025

Please accept this letter as official notification of the data error.

Sincerely,

Candice Bentley
