RE: 2025-2026 Misreported Student Data

The December 2025 snapshot report showed 1 student with overlapping data on their exit date.

The Exit date was put in as Nov. 23 for a student's last day. The public school put their start date as Nov. 19. I called the public school and they changed it to Nov. 24, the student's real start date. We also contacted the SIS vendor as to why the data did not publish. We republished the data a few times, and it still does not update in WISE. We will continue working on it.

Please accept this letter as official notification of the data error.

Yours Truly,
