

INSPIRE

Be Involved!

Complete an employer profile on Inspire to build talent-supply chains and seamless connections with middle and high school educators and students.

What is Inspire?

- A place where employers can help shape the future talent pipeline and highlight local opportunities.
- A secure platform for employers to share information with students and schools about the work they do and the skills they need.
- An opportunity for students to engage with employer profiles and career coaches to see how their pathways connect with businesses and organizations in their community.

Why Build a Profile?

- **INFORM:** Tell your future workforce about your industry and business through a company profile, career message boards, and targeted communications.
- **SYNCHRONIZE:** Offer and provide in-person and online learning activities like guest speakers, job shadows, mock interviews, youth apprenticeships, and more!
- **GET RESULTS:** Work with Inspire administrators and software tools to increase your impact and scale your talent-development efforts.

Statewide Connections

The Regional Leadership Council (RLC) of the Regional Economic Development Organizations (REDOs) developed infrastructure and stakeholder collaboration for engaging and onboarding employers and businesses into Inspire. As of October 2, 2018, all regional employer databases are connected statewide.

For information on your region's deployment visit InspireWisconsin.org or select from the options below
