About the 2016 Wisconsin Public Library Directory

In the combined *Directory of Public Libraries and Branches*, library branches are listed with the entry for their parent libraries and cross-referenced under the names of the communities where they are located. All public libraries and branches are listed in the *Name Index to Public Libraries and Branches*. Wisconsin's public libraries are organized into 17 regional public library systems, whose offices are listed in *Public Library Systems and Resource Libraries* on page 2.

Note: Eastern Shores Library System and Mid-Wisconsin Federated Library System are scheduled to merge into Monarch Library System as of January 1, 2017.

In addition to this publication, the information is available in documents linked from the Wisconsin Library Directories page of the Department of Public Instruction (DPI) website at dpi.wi.gov/pld/directories. DPI maintains a list of links to public library websites in order by community name at dpi.wi.gov/pld/directories/websites. For additional information about a particular library, you may wish to visit its website. In the PDF file of this publication, all website addresses are active links.

This publication is revised and published online annually. An Excel version is also available online at dpi.wi.gov/sites/default/files/imce/pld/xls/wipldir.xls and revised as needed throughout the year.

Public library statistics for 2015 have been released in separate files, along with year-by-year sets of files from 1996 onward, available to view or download from links at dpi.wi.gov/pld/data-reports/service-data.
