

GENERAL INFORMATION

Library System

Winnefox Library System

Describe demographic, economic, and other facts about your system that influenced the development of this and other system plans.

Winnefox provides support to libraries of widely varying size. While the majority of our libraries are located in communities with populations less than 3,000, we also serve several large and medium size libraries. We are challenged to assist our small libraries in providing services normally found only in large communities while providing our larger libraries with services that they find valuable. In order to provide the greatest good to all, Winnefox provides services that are a benefit to any size library such as printing and graphics, electronic infrastructure support, and electronic resources.

The primary economic influence on this plan is the need to deal with continued flat funding for the system as well as tight funding for member libraries. Local governments continue to be under levy limits and the support libraries receive from their municipalities and counties has not kept up with increased costs. Payments due to libraries in adjacent counties continue to cause budget pressure for counties and for those libraries which cannot bill neighboring counties.

Though the population of our member counties continues to be predominately native-born and Caucasian, all report increasing numbers of immigrants. The growth of new ethnic populations is causing our membership to examine what they are doing to serve those for whom English is a second language, or for whom reading is not a traditional family activity.

Describe significant needs and problems that influenced the development of this and other system plans.

Budget constraints will continue to have a significant impact on system activities in 2017. While state funding remains at the 2012 level costs continue to rise. Over the past several years we have eliminated numerous services and eliminated several positions through attrition and through layoff.

Describe the planning environment and process under which this and other system plans were developed. Include how member libraries are involved in plan development and review and whether your systems has a formally appointed advisory committee. (List additional system planning documents with the period covered and attach any planning documents which have not previously been provided to the division.)

In 2015 and 2016 we engaged in a planning process with OWLS to see if there are services we can cooperate on. After discussion by member library directors, system staff, and WiLS staff we decided to make no major changes in operations at this time. We are closely watching the PLSR process.

(Do not lump miscellaneous activities under a single "other" program.)

	ASSURANCES (cont'd.)	
--	-----------------------------	--

Winnefox Cooperative Technical Services (WCTS)**Ongoing Activities:**

Because WCTS funding is provided on behalf of the libraries directly from Green Lake, Waushara, and Marquette Counties, WCTS primarily serves libraries in those counties. Winnefox member libraries outside of these counties may contract for services from WCTS at cost.

WCTS provides cooperative book selection and processing for member libraries and sponsors several workshops on materials selection each year. WCTS staff provides "work days" consisting of on-site help and consultation for special projects such as weeding.

New or Priority Activities

No new activities are planned at this time.

Technology Support

Technology support is considered by libraries to be among the most important services we offer.

Ongoing activities

- Continued network maintenance and support of email for member library staff.
- Continued support of the ILS used by 29 of our libraries.
- System staff will continue to provide remote and on-site network and PC support.

New or Priority Activities

No new activities are planned at this time.

	COLLABORATIVE ACTIVITIES	
--	---------------------------------	--

Summary of Activities *Briefly describe collaborative activities with other libraries, public library systems, and other organizations. Exclude services and activities listed in the system's 2017 resource library contract.*

Winnefox has several longstanding collaborative relationships:

Administrative secretarial staff: Winnefox and Oshkosh Public Library jointly staff the administrative office for both organizations. At one time each organization operated separate offices, each with two full-time persons; the combined office has three full-time persons. The current FTE split is Winnefox: 1.8/Oshkosh: 1.2. By operating a combined office both organizations are also saving costs on office supplies and equipment.

Another shared position with Oshkosh Public Library is the Database-Application Developer. This position is three-fourths funded by Winnefox and one-fourth by Oshkosh. This benefits Oshkosh Public Library in that they would not be able to fund a full-time position at this level; a half-time position would likely cost about \$12,000 more than they are currently paying.

FoxNet is a collaborative program between Winnebago County, the Cities of Menasha, Neenah, and Oshkosh, several school districts, and Winnefox to provide a fiber connection between these organizations' facilities. This program costs only minimal

COLLABORATIVE ACTIVITIES (cont'd.)

maintenance and saves Winnefox and the libraries internet access fees.

Winnefox Cooperative Technical Services (WCTS) is in itself a collaborative program. By centralizing library materials selection, ordering, and processing we are saving 19 libraries both staff time, allowing libraries to operate with less staff or focus staff on direct public service, and direct costs on materials and supplies, by ordering in quantity for better discounts.

For several years Winnefox has provided accounting services to Southwest Library System, saving them considerably.

Every year we cooperate with neighboring systems on CE activities. As they have not been planned at this time we cannot estimate a dollar amount at this time.
