

Summary of Proposed Administrative Rule Changes to Educator Licensing (PI 34)

Changes to the administrative rule that governs educator licensing, PI 34, are the result of significant input from a diverse set of stakeholders throughout the state as well as over 900 public comments. The changes also implement new statutory language related to licensure as a result of the most recent biennial budget (2017 Wisconsin Act 59). The proposed rule changes are meant to make the licensing process more understandable and increase flexibility, while maintaining high-quality staff in Wisconsin schools. Key aspects of the proposed rule are:

- **Updates, clarifies and makes consistent the program approval process for both traditional and alternative route programs.** The new rule creates a standard, streamlined approach to approving educator preparation programs, while ensuring these programs provide our educators with high quality, rigorous training. (Subchapters II-IV).
- **Simplifies the licensing process.** The new rule creates a tiered approach to educator licensing, which will allow educators to obtain a license fitting their unique training and experience. (Subchapter V). Under this approach:
 - Tier I licenses are of limited duration and authorization, allowing school districts to meet short-term or specialized needs.
 - Tier II licenses are provisional licenses which allow new educators, out-of-state license holders, and other highly qualified individuals to start the progression to a life license.
 - Tier III licenses are life licenses for educators.
 - Tier IV licenses are optional master educator life licenses for educators who meet additional rigorous requirements for quality and effectiveness.
- **Consolidates subject areas.** The new rule will provide districts and teachers more flexibility by preparing educators to teach entire subject areas instead of specialized subjects (e.g., science, social studies, music – Subchapter VI)
- **Adds flexibility.** The new rule allows highly-qualified license holders to add additional license areas, giving them access to new opportunities and helping school districts fill high demand assignments. (Subchapters VI and IX)
- **Creates clarity.** The new rule uses standardized, simplified language and structure to make the rule clearer, more understandable, and shorter. As a result, the new rule is approximately two-thirds as long as the old rule.
